#### **Section 2.4 – ZONING DISTRICTS REGULATIONS**

The intent, Permitted Uses, Conditional Uses, height, area, density, and other regulations of each Zoning District are set forth in this Article II.

- 2.4.1    **Agricultural Zoning Districts.** Any Agricultural District is established to protect land best suited for Agricultural Use from the encroachment of incompatible land Uses, to preserve valuable agricultural land for Agricultural Uses, and to retain land suited for open land and recreation Use for the future.

- a. **Agricultural District (AG-1):** The intent of this Zoning District is to set aside land suitable for agricultural development and agricultural related Uses.
  1. **Permitted Uses.** See [Section 2.5](#).
  2. **Conditional Uses.** See [Section 2.5](#).
  3. **Area, Yard, Height, and Bulk Regulations.** See [Section 2.6](#).

2.4.2 **Residential Zoning Districts.** The Rural Non-Farm Residential District, Lake Residential District, Suburban Residential District, and Multiple-Family Residential District are designated principally for Residential Use and are limited to Dwellings and Uses normally associated with residential neighborhoods in order to encourage a suitable and healthy environment for home life. The Residential Zoning Districts are designed to regulate the location of Residential Uses and Dwellings according to a well-considered plan which reflects the different types of Residential Uses and Dwellings, the different densities of population and the intensity of land Use desired; potential nuisances and hazards which may cause unhealthy conditions; and the relationship of Residential Uses and Dwellings to other areas and areas devoted to Agricultural, Commercial, or Industrial Use and to roads. The purpose of each Residential Zoning District is further stated below.

- a. **Rural Non-Farm Residential District (RNF-1):** This Zoning District is established to provide suitable areas for 1-Family Dwellings at low densities to preserve a predominantly rural character in these areas fit for concentrated Residential Use because of the ability of the soil to absorb sewage wastes from individual septic tanks.
  1. **Permitted Uses.** See [Section 2.5](#).
  2. **Conditional Uses.** See [Section 2.5](#).
  3. **Area, Yard, Height, and Bulk Regulations.** See [Section 2.6](#).
- b. **Suburban Residential District (RS-1):** This Zoning District is designed to provide areas principally for high-density 1-Family Dwellings where necessary urban services and facilities can be feasibly provided, including central sanitary and central water systems.
  1. **Permitted Uses.** See [Section 2.5](#).
  2. **Conditional Uses.** See [Section 2.5](#).
  3. **Area, Yard, Height, and Bulk Regulations.** See [Section 2.6](#).
- c. **Lake Residential District (RL-1):** This Zoning District is designed to preserve and enhance areas which are suitable for lakefront residential development, principally 1-Family Dwellings at moderate densities, with consideration to protecting the lake waters from potential pollutants.
  1. **Permitted Uses.** See [Section 2.5](#).
  2. **Conditional Uses.** See [Section 2.5](#).
  3. **Area, Yard, Height, and Bulk Regulations.** See [Section 2.6](#).

- d. **Multiple-Family Residential District (RM-1):** This Zoning District is designed to permit a high density of population and a high density of land Use in those areas which are served by a central water supply system and a central sanitary sewer system, and which abut or are adjacent to such other Uses or amenities which support, complement or serve such a density and intensity.
  - 1. **Permitted Uses.** See [Section 2.5](#).
  - 2. **Conditional Uses.** See [Section 2.5](#).
  - 3. **Area, Yard, Height, and Bulk Regulations.** See [Section 2.6](#).

2.4.3 **Commercial Zoning Districts.** The General Commercial District, and Highway Service Commercial District are designed to limit compatible commercial enterprises at appropriate locations to encourage efficient traffic movement, parking and utility services; advance public safety; and protect surrounding property. The Commercial Zoning Districts are designed to regulate the locations of these Commercial Uses according to a well-considered plan which determined the types of such Uses and the intensity of land, and roads in each such Zoning District; potential nuisances and hazards which may cause unsafe conditions; and the relationship of Commercial Uses to each other and to other areas devoted to Agricultural, Residential, or Industrial Use and to roads. The purpose of each Commercial Zoning District is further stated below.

- a. **General Commercial District (C-1):** This Zoning District is intended to encourage planned and integrated groupings of retail, service, and administrative establishments which will provide retail convenience and comparison goods and provide personal and professional services for the entire area and to accommodate commercial establishments which cannot be practically provided in another commercial area.
  - 1. **Permitted Uses.** See [Section 2.5](#).
  - 2. **Conditional Uses.** See [Section 2.5](#).
  - 3. **Area, Yard, Height, and Bulk Regulations.** See [Section 2.6](#).
- b. **Highway Service Commercial District (C-2):** This Zoning District is intended to provide various commercial establishments offering accommodations, supplies, and services to local as well as through motorized vehicle traffic. This Zoning District should be provided at locations along major thoroughfares and discourage dispersion of these activities.
  - 1. **Permitted Uses.** See [Section 2.5](#).
  - 2. **Conditional Uses.** See [Section 2.5](#).
  - 3. **Area, Yard, Height, and Bulk Regulations.** See [Section 2.6](#).

2.4.4 **Industrial Zoning Districts.** It is recognized by the Zoning Ordinance that the value to the public of designating certain areas for certain type of Industrial Uses is represented in the employment opportunities afforded to citizens and the resultant economic benefits conferred upon the Township of Somerset. In order that this value may be maintained and this Use encouraged, this Zoning Ordinance established one Zoning District designed to regulate the location of Industrial Uses according to a well-considered plan which reflects the types of such Uses and the intensity of land, and roads in each such Zoning District; potential nuisances and hazards which may cause unsafe and unhealthy conditions; and the relationship of Industrial Uses to each and to other areas devoted to Agricultural, Residential, or Commercial Use and to roads and other means of transportation. To these ends, certain Uses which would function more effectively

in other Zoning Districts and would interfere with the operation of these industrial activities and the purpose of these Zoning Districts have been excluded. The purpose of this Industrial Zoning District is further stated below.

- a. **Light Industrial District (I-1):** This Zoning District is designed to provide suitable space for Light Industrial Uses which operate in a safe, non-objectionable and efficient manner, and which are compatible in appearance with and require a minimum of buffering measures from adjoining nonindustrial Zoning Districts. These Uses generate a minimum of noise, glare, odor, dust, vibration, air and water pollutants, fire, explosive and radioactive hazards, and other harmful or obnoxious matter.
  1. **Permitted Uses.** See [Section 2.5](#).
  2. **Conditional Uses.** See [Section 2.5](#).
  3. **Area, Yard, Height, and Bulk Regulations.** See [Section 2.6](#).

**Section 2.5 – TABLES OF PERMITTED AND CONDITIONAL USES**

The tables in this Section 2.5 contain the various Uses permitted (P), or allowed conditionally (C) within the indicated Zoning Districts. ### 2.6.1 Compliance with Regulations:

- a. Notwithstanding the regulations of [Section 2.6](#), in General Commercial Zoning Districts, the Township Zoning Administrator and/or the Township Zoning Board of Appeals and/or the Township Board of Trustees may permit Lots to be not less than 20 feet wide and Lots to contain an area not less than 1,500 square feet only in instances where such Lots are contained within a platted subdivision which is irrevocably dedicated for Commercial Uses and where central sewerage and water systems are available.
- b. No yard or Lot existing at the time of passage of this Zoning Ordinance shall be reduced in dimension or area below the minimum regulations set forth for the Zoning District in which the yard or Lot is located. Yards or Lots created after the effective date of this Zoning Ordinance shall meet at least the minimum regulations established by this Zoning Ordinance.

- c. No part of a yard or other open land required for or in connection with any Building/Structure (for the purpose of complying with this Zoning Ordinance) shall be included as part of a yard or open land similarly required for any other Building/Structure.

2.6.2 **Yard Measurements:**

- a. Lots which abut on more than one road shall provide the required front yards along every road.
- b. All front, side and rear yards shall be the minimum perpendicular distance measured from the Lot line to the Principal Building/Structure, excluding all projections not exceeding 3 feet in length from the Building/Structure wall.
- c. A 3-sided Lot shall be considered to have a front and 3 sides. The road Lot line will be considered the front line except on a Lot abutting the water; then the front will be interpreted to be the water side.

2.6.3 **Lot Width:** The width of a Lot shall be considered to be the distance between straight lines connecting front and rear Lot lines at each side of the Lot, measured across the rear of the required front yard; provided however, that width between side Lot lines at their foremost points (where they intersect with the road line) shall not be less than 80% of the required Lot width, except in the case of Lots on the turning circle of cul-de-sacs, where the 80% regulations shall not apply.

2.6.4 **Height Exceptions:** The limitations affecting the height of Building/Structures shall not apply to the following appurtenant appendages and Buildings/Structures provided they comply with all other provisions of this Zoning Ordinance or other applicable Ordinances; parapet walls, chimney, smokestacks, religious institution spires, flagpoles, radio and television towers, penthouses for mechanical equipment, water tanks, anemometers and wind energy conversion systems.

2.6.5 **Increased Height:** Building/Structure height in excess of the height above average ground level allowed in any Zoning District may be permitted provided all minimum front, side, and rear yard depths are increased 1 foot for each additional 1 foot of height and provided that adequate fire protection can be demonstrated.

2.6.6 **Accessory Building/Structure:**

a. **General**

1. Accessory Building/Structure in all Zoning Districts except AG-1 Agricultural shall be subject to the regulations in this Section 2.6.6, except as otherwise specified in this Zoning Ordinance.
2. Reserved.
3. Accessory Buildings/Structures shall be customarily incidental and subordinate to the existing Principal Building/Structure or Use permitted and existing on the site.
4. Accessory Buildings/Structures include, but are not limited to, garages, carports, pole barns and storage sheds, which shall be constructed for permanent use and of materials which the Township Zoning Administrator determines are normally recognized building materials for the type of Accessory Building/Structure being constructed.
5. Mobile homes, portable Buildings/Structures, Buildings/Structures constructed of fabric or vinyl, vehicles and trailers, shall not be considered Accessory Buildings/Structures and are not permitted to be used as garages or Accessory Buildings/Structures.

6. Permit-required: Any Accessory Building/Structure shall require a Zoning Compliance Permit, except 1 Accessory Building/Structure under 150 square feet shall be allowed without a Zoning Compliance Permit.
7. Required setbacks: A detached Building/Structure less than 150 square feet of total floor area shall be at least 4 feet from any Principal Building/Structure, and at least 4 feet from any property line.
8. Restrictions in front yard: An Accessory Building/Structure shall not be erected in any front yard, except an Accessory Building/Structure is permitted in the front yard on waterfront Lots in the RL-1 District.
9. Shoreline Lots: a separate deck or patio of 200 square feet or less shall be permitted along the waterside property line, with a maximum length along the waterside property line of 20 feet and a maximum height of 24 inches above average grade. Lots with boundary lines located in the water, deck or patio may be constructed within 4 feet of the ordinary high-water mark of the lake or stream.

b. **Area, Height and Number Limitations.**

1. No detached Accessory Building/Structure shall be located closer than 10 feet to any other Building/Structure.

  - (a) In no instance shall such Building/Structure be near the side yard or rear Lot line than as referred in [Section 2.6](#).
  - (b) Detached garages in Residential Zoning Districts may be located in the side yard, providing setback regulations for the Principal Building/Structure are maintained.
  - (c) In the case of lakefront property, an Accessory Building/Structure is permitted in the front yard, provided the same front and side yard setbacks required for a Principal Building/Structure in the property are complied with.
3. All Accessory Buildings/Structures in Commercial and Industrial Zoning Districts shall be subject to the same standards and regulations for Principal Buildings/Structures.
4. An Accessory Building/Structure shall not occupy more than 25% of a required rear yard, not more than 40% of any non-required rear yard. In no instance shall the ground floor area of any Accessory Building/Structure exceed 150% of the Principal Building/Structure in any regulated Zoning District.
5. No Accessory Building/Structure shall be constructed prior to the commencement of its Principal Building/Structure.

2.6.7 **Distance Between Grouped Buildings:** In addition to the required setback lines provided elsewhere in this Zoning Ordinance, in grouped Buildings/Structures (including Multiple-Family Dwellings) the following minimum distances shall be required between each said Dwelling.

- a. Each off-road parking space for motorized vehicles shall be not less than 200 square feet in area, exclusive of access drives or aisles, and shall be of usable shape and condition.
- b. There shall be provided a minimum access drive of 10 feet in width, and where a turning radius is necessary, it will be of such an arc as to reasonably allow an unobstructed flow of traffic.
- c. Parking aisles for motorized vehicles shall be of sufficient width to allow a minimum turning movement in and out of parking spaces. The minimum width of such aisles shall be:
  1. For 90° or perpendicular parking, the aisle shall not be less than 22 feet in width.

3.6.5 **Collective Parking:** Regulations for the provision of parking facilities with respect to 2 or more property Uses of the same or different types may be satisfied if the permanent allocation of the requisite number of spaces designated is not less than the sum of individual regulations.

3.6.6 **Determining Regulations:** For the purposes of determining off-road parking regulations the following units of measurement shall apply:

- a. **Floor Area:** In the case where floor area is the unit for determining the required number of off-road parking spaces, said unit shall mean the gross floor area, except that such floor area need not include any area used for parking within the Principal Building/Structure and need not include any area used for incidental service storage, installations of mechanical equipment, penthouse housing ventilators and heating systems, and similar uses.
- b. **Places of Assembly:** In stadiums, sports arenas, religious institutions, and other places of assembly in which those in attendance occupy benches, pews, or other similar seating facilities, every 24 inches of such seating shall be counted as 1 seat. - c. **Fractions:** When units of measurement determining the number of required parking spaces result in requirement of a fractional space, any fraction up to and including  $\frac{1}{2}$  shall be disregarded and fractions over  $\frac{1}{2}$  shall require 1 parking space.

3.6.7 **Schedule of Off-Road Parking Spaces:** The minimum required off-road parking spaces shall be set forth in the following Schedule of Off-Road Parking Spaces. Where a Use is not specifically mentioned, the parking regulations of a similar or related Use shall apply.

#### **Section 4.9 – CONDITIONAL USES**

The formation and enactment of this Zoning Ordinance is based upon the division of the Township of Somerset into Zoning Districts in each of which are permitted specified Uses which are mutually compatible. In addition to such compatible Permitted Uses however, there are certain other Uses which may be necessary or desirable to allow in certain locations in certain Zoning Districts, but because of their actual or potential impact on neighboring Uses or public facilities, need to be carefully regulated with respect to their location for the protection of the Township of Somerset. Such Uses, on account of their peculiar locational need or the nature of the service offered, may have to be established in a Zoning District in which they cannot be reasonably allowed as a Permitted Use.

- 4.9.1 **Authority to Grant:** The Township Planning Commission, as hereinafter provided, shall have the authority to recommend to the Township Board of Trustees to grant Conditional Use Permits, subject to such conditions of design, operation, and safeguards as the Township Board of Trustees may determine for all Conditional Uses specified in the various provisions of this Zoning Ordinance.
- 4.9.2 **Application and Fee:** Application for any Conditional Use Permit permissible under the provisions of this Zoning Ordinance shall be made to the Township Planning Commission through the Township Clerk by filling in an official Conditional Use Permit application form; submitting required data, exhibits, and information; and depositing the required fee as established by resolution of the Township Board of Trustees, except that no fee shall be required of any governmental body or agency. No part of such fee shall be returnable to the applicant.

- 4.9.5 **Required Standards and Findings for Making Determinations:** The Township Planning Commission shall review the particular circumstances and facts of each proposed Use in terms of the following standards and required findings, and shall find and record adequate written data, information, and evidence showing that such a Use on the proposed site, Lot, or parcel meets the following regulations:

  - b. Will be designed, constructed, operated, maintained, and managed so as to be harmonious and appropriate in appearance with existing or intended character of the general vicinity.
  - c. Will be served adequately by essential public facilities and services, such as: roads, police and fire protection, drainage structures, refuse disposal, or that the persons or agencies responsible for the establishment of the proposed Use shall be able to adequately provide such service.
  - d. Will not be hazardous or disturbing to existing or future neighboring Uses.
  - e. Will not create excessive additional requirements at public cost for public facilities and services.
- 4.9.6 **Determination and Imposition of Conditions:** If the facts in the case do not establish beyond a reasonable doubt that the findings and standards set forth in the Zoning Ordinance shall apply to the proposed Use, the Township Planning Commission shall not recommend to the Township Board of Trustees that said should grant a Conditional Use Permit. In recommending that a Conditional Use Permit should be granted by the Township Board of Trustees, the Township Planning Commission shall recommend such conditions as it deems

necessary to protect the best interest of adjacent Lots and the Township of Somerset, and to achieve the objectives of the Zoning Ordinance. The decision on a Conditional Use Permit shall be incorporated in a statement of findings and conclusions relative to the Conditional Use Permit which specify the basis of the decision and any conditions imposed.

- 4.9.7 **Approval, Grant or Permit:** Upon holding a public hearing and the finding that the regulations of Section 4.9.2 through Section 4.9.6 of the Zoning Ordinance have been satisfactorily met by the applicant, the Township Planning Commission shall within 30 days recommend approval or disapproval to the Township Board of Trustees. The recommendation shall be incorporated in a statement of findings and conclusions which specified the basis for the recommendation and any conditions applied.

When the Township Board of Trustees gives approval, a Conditional Use Permit shall be issued to the applicant. The Township Board of Trustees shall forward a copy of the Conditional Use Permit to the applicant, the Township Clerk, the Township Zoning Administrator, and the Township Planning Commission. The Township Zoning Administrator shall not issue a Zoning Compliance Permit until the Township Zoning Administrator has received a copy of the Conditional Use Permit approved by the Township Board of Trustees.

- 4.9.8 **Voiding of Conditional Use Permit:** Any Conditional Use Permit granted under this Zoning Ordinance shall become null and void and fees forfeited unless construction and/or Use is commenced within 210 days and completed within 575 days of the day of issuance. #### **Section 4.10 – ADDITIONAL DEVELOPMENT REGULATIONS FOR CERTAIN CONDITIONAL USES**
