an increase is found to be necessary to reasonably achieve the intent of this Chapter. In making such determination, the following shall be considered:

- (1) That such screening, buffering, or landscaping would mitigate negative effects of noise, dust, lighting, vehicular or pedestrian traffic, loading or unloading, parking, or other similar impact on adjoining parcels.
- (2) That absent such conditions, the development would adversely affect the reasonable use, enjoyment, and value of adjoining lands in light of similar benefits enjoyed by other properties in the area.
 - a. Reductions and substitutions of plantings: If a physical hardship exists or existing topography and vegetation are determined by the Planning Commission to provide equal or better landscape and buffering effect, the Commission may approve modifications to the planting and berming recommendations of this document. The Planning Commission may require such alternate plantings and visual screens as hedges, fences, walls, and/or combination thereof which it deems necessary to ensure compliance with the intent of this document and the criteria listed under (h) above.

SECTION 13.01. DESCRIPTION AND PURPOSE. The purpose of this Chapter is to permit and regulate off-street parking of motor vehicles and the off-street loading and unloading of vehicles in all zoning districts.

In all zoning districts, off-street parking facilities for the storage and parking of self-propelled motor vehicles for the use of occupants, employees, and patrons of buildings erected, altered, or extended after the effective date of this Ordinance shall be provided as prescribed herein. Such areas shall be maintained and shall not be encroached upon so long as the main building or structure remains, unless an equivalent number of spaces and area are provided elsewhere on the site in accordance with this Ordinance.

SECTION 13.02. SIZE AND UNITS OF MEASUREMENT. All off-street parking facilities required by this Article shall be of adequate size and design to provide safe ingress and egress to all parking spaces. For the purposes of this Ordinance, the average parking area consisting of one parking space with maneuvering lane shall be three hundred (300) square feet.

SECTION 13.04. REQUIRED CONSTRUCTION. All parking and loading facilities and access drives for uses other than one and two family residential, agricultural, and accessory farm produce sales shall be provided with a pavement surface consisting of asphalt or concrete. Driveways shall be constructed with materials equal to or better than the standards set forth by the Kent County Road Commission for commercial driveways. - (a) Industrial, commercial, and institutional uses. Parking areas for such uses shall be screened by an evergreen hedge or berm with natural landscaping consisting of a combination of evergreens, deciduous trees, and shrubs. The effective height of such trees

or trees and berm in combination at the time of installation shall be at least eight (8) feet in height and sufficiently dense that the visibility of the parking area is obscured. If the owners of the adjacent or opposing properties agree, this screening may be a solid uniformly painted fence or wall kept in good repair, a minimum of four (4) feet in height.

- (b) When the use of a berm is employed, this berm shall be one of three types. Generally, it shall be a continuous undulating serpentine form. It shall have a maximum slope ratio of four (4) feet horizontal to one (1) foot vertical. A flat horizontal area at the crest is required to be four (4) feet in width. The berm shall range in height from three (3) to ten (10) feet, depending upon the specific existing natural and proposed architectural conditions. Capacity requirements are to be sixty (60) percent in winter and eighty (80) percent in summer within two (2) years after planting.

If existing trees are six (6) inches diameter at breast height or greater, the berm may be designed in a natural format. The berm itself may be divided and formed on either side or continue around the existing trees. The plantings are to be primarily evergreen trees on the crest of the berm. These may be supplemented with shrubs that regenerate on each side of the berm (i.e., red twig dogwood, fragrant sumac, arrowroot viburnum). The berm shall be hydrosphere.

The minimum sizes of all plants when planted are to be five (5) feet in height for evergreen trees, three (3) inch caliper for deciduous trees, two (2) inch caliper for small deciduous trees, thirty (30) inch for small shrubs. Spacing to be in a triple spacing or equilateral triangle format. Evergreen trees shall be a minimum of ten (10) feet on center, deciduous trees fifteen (15) feet on center. All plants are to be mulched with four (4) inch shredded hardwood bark.

Where a proposed use intends to share parking facilities with another use, the Planning Commission, before authorizing a building permit, shall require guarantees, agreements, covenants or similar arrangements between the parties involved to insure that adequate parking will always be available for both properties.

Exceptions to these provisions may be provided by the Planning Commission in those cases where uses have parking demands that do not coincide in time of day or in the day of the week, such as churches and businesses, theaters and businesses, or churches and schools. However, in no event shall the parking requirements for the respective uses be reduced to less than seventy percent (70%) of that normally required by this Chapter. The Planning Commission, before authorizing a building permit, shall secure such guarantees, agreements, covenants or similar arrangements as are necessary to insure that adequate parking will always be provided. In considering such exceptions, the Planning Commission shall consider:

- (a) The nature of the uses and their respective parking demands;
- (b) Their hours of operation and the days of the week during which they operate;
- (c) The location of the parking area intended for joint use and its proximity to the uses; and
- (d) The nature of the surrounding area and the potential impact of a parking area intended for joint usage.

Such plans shall be reviewed pursuant to the provisions of Chapter 15, Site Plan Review.

SECTION 13.12 PERMITS. The following permits are required, as appropriate to the circumstances involved, for all parking areas except one and two family dwelling units and permitted agricultural uses:

- (a) No parking area may be constructed or enlarged before the issuance of a building permit. Before issuing a building permit, the Zoning Administrator shall be presented with a site development plan, where required, approved by the Planning Commission. In those cases where an approved driveway permit from the County Road Commission is required, said permit shall be submitted to the Zoning Administrator prior to the issuance of a building permit.
- (b) No parking area shall be occupied or used as a parking area prior to the issuance of an occupancy permit nor shall it be used or occupied if an occupancy permit has been revoked. The Zoning Administrator is hereby authorized to revoke an occupancy permit for a parking area whenever the occupant fails to comply with the conditions or requirements of the approved site development plan, this Ordinance, or any special conditions imposed by the Board of Appeals. Such use or occupancy shall cease within sixty (60) days following such revocation.
- (c) The Zoning Administrator may issue a temporary occupancy permit with special conditions stated thereon where the full improvement of a parking area and drives thereto would not be warranted due to a settling ground, adverse weather conditions, contractor scheduling, or similar reasonable circumstances. A temporary use permit may be issued for up to twelve (12) months and may not be renewed except by direction of the Board of Appeals.
- (d) A performance guarantee may be required by the Planning Commission as per Section 15.09 of this Ordinance.

SECTION 13.13 PARKING VARIATION. Where it can be shown, as provided herein, that the parking requirements of this Section would provide an unnecessary amount of parking area for the peculiar needs of a particular use, the Planning Commission may approve a site development plan with a lesser paved area, provided all the following conditions are present:

- (a) Said use does not attract or provide services to the general public;
- (b) The maximum number of employees and visitors during any one eight-hour period is stated on the site development plan;
- (c) A signed agreement is legibly shown on said site development plan to provide additional parking if an increase in employees or visitors shall occur at a future time;
- (d) The paved parking area proposed accommodates one car for each stated employee or visitor plus ten percent (10%) more parking area than such number;
- (e) An open lawn area, meeting the additional required area of this section, is shown reserved for future parking on the site development plan; and

- (f) Said site development plan approval of lesser requirements shall be valid only for the stated use. An occupancy permit for a new use shall not be issued unless a new site development plan is reviewed and approved.

SECTION 13.14 REQUIRED OFF-STREET LOADING AND UNLOADING SPACE. In all districts, every building or part thereof, hereafter erected, which is to be occupied for manufacturing, storage, retail sales, warehousing, wholesale sales, or a hotel, hospital, mortuary or laundry, or uses similarly requiring the receipt or distribution in vehicles of materials or merchandise shall provide and maintain, on the same premises, paved off-street loading spaces in relation to floor area as follows:

Up to 20,000 square feet	- 1 space
20,000 to 50,000 square feet	- 2 spaces

SECTION 13.15 MISCELLANEOUS OFF-STREET PARKING PROVISIONS

- (a) Existing Off-Street Parking at the Effective Date of this Ordinance: Off-street parking existing at the effective date of this Ordinance which serves an existing building or use, shall not be reduced in size to less than that required under the terms of this Ordinance.
- (b) Fractional Requirements: When units of measurement determining the number of required parking spaces result in the requirement of a fractional space, the fraction shall be considered one (1) full required space.
- (c) Requirements for a use not listed shall be the same for that use which is most similar to the use not listed as determined by the Zoning Administrator and/or the Planning Commission.

- (d) For the purposes of determining off-street parking and loading requirements, the following provisions shall apply:
- (1) Floor area shall mean net floor area of all floors of a building as defined in Chapter 2.
 - (2) Joint or collective provision of off-street parking areas for buildings or uses on one or more properties shall not be less than the sum of the requirements for the participating individual uses computed separately.

SECTION 14.01 PURPOSE. The provisions of this Chapter are intended to set forth the procedure and standards applicable to certain land uses, structures, or activities which, because of their unique characteristics, require special consideration in relation to the welfare of adjacent properties and/or the community as a whole.

Because of these characteristics, the use of the land for certain purposes in certain districts will not be permitted without first obtaining special approval from the Planning Commission.

SECTION 14.02 APPLICATION AND REVIEW. An application for permission to establish a special use shall be submitted and acted upon in accordance with the following procedures:

- (a) **Application** - Applications for a special use shall be submitted to the Zoning Administrator who will review the application for completeness, then transmit to the Planning Commission.  - (2) Upon conclusion of deliberation and considerations, the Planning Commission shall approve, deny, or approve with conditions the request. Such denial, approval, or approval with conditions shall be incorporated in a motion that contains the findings relative to the special use under consideration and which further specifies the basis for the decision and any conditions imposed.
- (e) Conditions. Reasonable conditions may be required with the approval of a special use by the Planning Commission. The conditions may include, but are not limited to, conditions necessary to insure that public services and facilities affected by a proposed land use or activity will be capable of accommodating increased service and facility loads caused by the land use or activity, to protect the natural resources and energy, to insure compatibility with adjacent uses of land, and to promote the use of land in a socially and economically desirable manner. Conditions imposed shall meet all of the following requirements:
- (1.) - (c) As a minimum or unless specifically modified by the provisions set forth for specific special uses, the dimensional standards and landscape, buffering, and parking regulations otherwise applicable to the use and/or zoning district shall be maintained as outlined within the other various applicable chapters of this Ordinance. For uses permitted by right in one district, but which require special use approval in another district, the standards relating to the district in which the use is permitted by right shall serve as the minimum standards to which the site shall be designed. In such cases where there are conflicting standards, the most restrictive shall apply, unless specifically modified by the provisions of this Article.
- (d) Upon finding that any condition, safeguard, or requirement has been breached, the Zoning Administrator shall revoke an occupancy permit. All operations shall cease fourteen (14) days following notification by the Zoning Administrator of such violations unless such conditions are corrected. Reinstatement of a revoked permit shall require a new application and approval therefore.

The lawful use of any land or structure, exactly as such existed at the time of the enactment of this Ordinance, may be continued in the following manner, even though such use or structure does not conform with the provisions of this Ordinance:

- (a) Where a nonfarm structure or use of land is non-conforming because the use is not permitted in the district, such structure or land usage shall not be enlarged or further increased. However, if upon application to the Board of Appeals it shall find upon reasonable evidence that:
- (1) there will be no danger to the safety, health, or welfare of the residents of the vicinity;
 - (2) it will be done in such a manner as to safeguard the character of the zone;
 - (3) there are no other non-conforming structures within one hundred fifty (150) feet of the proposed extension of the non-conforming structure (measuring from building line to building line); or in the case of a proposed extension of a non-conforming use, in land area the proposed extension must be two hundred (200) feet from any conforming structure (measuring from the building line of the conforming structure to the nearest point of the area which will compose the extended portion of the non-conforming use); and
 - (4) there is a reasonable need for the extension of a non-conforming use; then the Board of Appeals may allow an extension of fifty percent (50%) from the original existing floor space or existing land area comprised of the non-conforming use, or structure, or both.
- (b) The Board of Appeals shall have no power to extend a non-conforming use or non-conforming structure more than fifty percent (50%) of the original non-conforming use or structure. For the purpose of this subsection, "original" shall mean the existing floor space or existing land area at the time of initial application to the Board of Appeals as allowed hereunder. SECTION 16.03 CHANGE OF USE. The use of a non-conforming building may be changed to another non-conforming use if the Board of Appeals finds that such new use would markedly decrease the degree of nonconformance and would enhance the desirability of adjacent conforming use.

SECTION 16.04 RESTORATION AND REPAIR. Such repairs and maintenance work as are required to keep a non-conforming building or structure in a sound condition may be made. If a non-conforming building or structure is damaged or destroyed to the extent of sixty percent (60%) of its real value by fire, flood, wind or other calamity, its reconstruction and subsequent use shall be in accordance with this Ordinance. A non-conforming building damaged to a lesser extent may be restored to its size at the time prior to such damage and its use resumed. Any such restoration must be started within a period of one year of the time of such damage and diligently prosecuted to completion.

SECTION 16.05 NON-CONFORMING DUE TO RECLASSIFICATION. The foregoing provisions of this Chapter shall also apply to buildings, land or uses which hereafter become non-conforming due to any reclassification of districts or any subsequent change in the regulations of this Ordinance.

SECTION 16.06 NON-CONFORMING USES DISCONTINUED. No building or premises which is a non-conforming use within its district which is unoccupied or unused for more than twelve (12) months shall thereafter be devoted only to a conforming use except as provided in Section 16.03

SECTION 16.07 PLANS ALREADY FILED. Where plans for a building have been filed which would conform with the zoning regulations then effective but not with subsequently enacted regulations, and where a building permit for a building conforming to the Zoning Ordinance at time of issuance has been issued, such building may be erected, provided construction is begun within three months of such issuance and diligently pursued to completion.

- (b) That special conditions or circumstances exist which are peculiar to the land, structure or building involved and which are not applicable to other lands, structures or buildings in the same district;
- (c) That literal interpretation of the provisions of this ordinance would deprive the applicant of property rights commonly enjoyed by other properties in the same district under the terms of this Ordinance;
- (d) That the special conditions or circumstances do not result from the actions of the applicant;
- (e) That the authorizing of such variance will not be of substantial detriment to neighboring properties and will not be contrary to the spirit and purpose of this Ordinance.

No nonconforming use of neighboring lands, structures or buildings shall in itself be considered grounds for the issuance of a variance.

SECTION 17.07 CONDITIONS OF APPROVAL. In authorizing a variance or exception, the Board may, in addition to the specific conditions of approval called for in this Ordinance, attach thereto such other conditions regarding location, character, landscaping or treatment reasonably necessary to the furtherance of the intent and spirit of this Ordinance and the protection of the public interest.

SECTION 17.08 TIME LIMITATIONS ON VARIANCES. Any variance granted by the Board shall automatically become null and void after a period of twelve (12) months from the date granted unless the owner or his agent shall have taken substantial steps, as determined by the Board, in implementing the variances granted by the Board, provided that the owner, upon application filed prior to the expiration of the variance, may obtain an extension to implement the variances for an additional period of twelve (12) months upon showing that the expiration of the variance will cause an undue hardship to the owner.

If the name of the occupant is not known the term "occupant" may be used in making notification. Notification need not be given to more than one occupant of a structure, except that if a structure contains more than one dwelling unit or special area owned or leased by different individuals, partnerships, businesses or organizations, one occupant of each unit or special area shall receive notice. In case of a single structure containing more than four (4) dwelling units or other distinct special areas owned or leased by different individuals, the partnerships, businesses or

A copy of the Board's decision shall be transmitted to the applicant or appellant and to the Zoning Administrator within forty-eight (48) hours of such a decision. Such decision shall be binding upon the Zoning Administrator and observed by him/her, and he/she shall incorporate the terms and conditions of the same in the permit to the applicant or appellant whenever a permit is authorized by the Board. A decision of the Board shall not become final until the expiration of five days from the date such decision unless immediate effect is necessary for the preservation of property or personal rights, in which case, the Board shall so certify on the record.

SECTION 17.11 STAY OF PROCEEDINGS. An appeal shall stay all proceedings in furtherance of the action appealed from unless the Zoning Administrator certifies to the Zoning Board of Appeals, after notice of appeal shall have been filed with him/her, that by reason of fact stated in the certificate, a stay would, in his/her opinion, cause imminent peril to life or property. In such case, proceedings shall not be stayed otherwise than by a restraining order which may, on due cause shown, be granted by the Zoning Board of Appeals or by the Circuit Court on application, after notice to the Zoning Administrator.
