- G. The minimum landscaped open space ratio shall be twenty-five (25) percent in the Town Development District.

H. Waterfront Development:

(A) Setbacks from Water - All structures on lots abutting any body of water, as defined in Act No. 346 of the Public Acts of 1972, including, but not limited to, inland lakes, rivers, streams, and impoundments, shall maintain a minimum setback of 100 feet as measured from the high water mark or lot line with a thirty (30) foot natural buffer. 4. Will be served adequately by essential public facilities and services;
5. Will not create excessive additional requirements at public cost for public facilities and services and will not be detrimental to the economic welfare of the community; and
6. Will protect the public health, safety and welfare of the community.

Section 414 Wireless Communication Facilities

- (A) The Township of Skandia has a clear and identifiable interest in accommodating the

communication needs of residents and businesses, and has an interest in regulating the location of such facilities to retain the integrity of neighborhoods and protect the public health, safety and welfare of the residents.

(B) It is the policy of the Township of Skandia to minimize the overall number of newly established locations for wireless communication facilities and wireless communication support structures within the Township, and encourage the use of existing structures for Attached Wireless Communication Facilities. It is the Township's interest to the extent reasonable to encourage the cooperative use and co-location of such towers and their associated facilities and structures. All new and modified wireless communication facilities shall be designed and constructed so as to accommodate co-location.

(C) The Skandia Township Planning Commission shall use the following standards in reviewing the Conditional Use Permit:

1. A conditional use permit for a new wireless communication facility shall not be granted unless the applicant demonstrates that feasible co-location is not available for the coverage area and capacity needs.
2. Towers shall be designed and constructed in a manner as to accommodate at least three (3) antennas or other facilities, thus encouraging co-location. Towers must be designed to allow for future rearrangement of antennas and to accept antennas mounted at different heights.
3. Wireless communication towers shall not exceed 300 feet in height.
4. Towers shall be set back from any lot line at a distance at least equal to the height of the tower.
5. All towers and alternate support structures must be certified by a professional structural engineer licensed in Michigan. All support structures must comply with all federal, state, and local standards.
6. All wireless communication facilities shall be camouflaged to the extent possible, using compatible building materials and colors, screening, camouflage techniques, landscaping and/or the placement of trees. Existing native vegetation and natural land forms shall be preserved to the extent possible.
7. Wireless communication towers and antennas shall not be lighted, except as specifically required by the Federal Aviation Administration, and/or any other state or federal agency having jurisdiction in such cases. When flashing lights are required on a tower, red lights shall be used during night time hours unless white strobes or other lights are required by regulatory agencies. Lighting of equipment structures or other accessory structures is discouraged and shall not project beyond the property line.

8. No advertising message shall be attached to any wireless communication facility. Signage shall be limited to that required by the FCC or other regulatory agencies.
9. All metal towers shall be constructed of/or treated with corrosion-resistant material.

12. Evidence that appropriate federal and/or state permits have been obtained shall be required prior to tower construction.
13. If a tower is proposed for construction on leased property, written acknowledgment of the landowner that he/she will abide by the terms and conditions of the permit in the event that the lessee is unable to do so is required.
14. A tower shall be removed within six months of being abandoned by all users. After complete demolition and removal of the structure, the premises shall be restored to an acceptable condition as reasonably determined by the Zoning Administrator. To assure that removal takes place, a performance bond in an amount equal to the estimated cost of removal must be obtained. The bond shall be issued by an acceptable bonding company authorized to do business in the State of Michigan. In the event the owner fails to remove the tower the Township shall use the bond to pay for removal no less than 60 days following written notification by certified mail to the owner. Any funds remaining after removal shall be returned. If the cost of removal exceeds the amount of the bond, the owner shall be responsible for all additional costs.
15. In order that the township may provide due notice of the requirements of this Ordinance to any subsequent owner, the owner of any wireless communication facility in the township, shall notify the township within 30 days of transfer of ownership, identifying the name, address, and phone number of an appropriate contact person for the new owner.

## ARTICLE V SIGNS

### Section 501 Intent

It is hereby determined that regulation of the locations, size, placement, and certain features of signs is necessary to enable the public to locate goods, services, and facilities without difficulty and confusion, to prevent wasteful use of natural resources in competition among business for attention, to prevent hazards of life and property, and to assure the continued attractiveness of the community and protect property values. It is further determined that signs which may lawfully be erected and maintained under the provisions of this Ordinance are consistent with customary usage, and that signs which may not lawfully be erected or maintained under the provisions hereof are not consistent with customary usage, are an abuse thereof, and are unwarranted invasions of the rights of legitimate business interests and of the public.

### Section 502 Residential District Regulations for Signs

Within all districts allowing residential uses, signs shall be permitted as follows:

- (A) One sign to announce the sale or rent of property whose area shall not exceed six (6) square feet.

There shall be a maximum of one hundred (100) square feet of sign area for each developed parcel. Where a premise has more than one occupant, the permitted sign area shall be divided among them in the same proportion as floor space and outdoor sales as occupied by them. Where a premise has more than two occupants and has a name distinct from that of the occupants, as in a shopping center, an additional two (2) square feet of sign area for each ten (10) feet or fraction of street frontage, with a maximum of two hundred (200) square feet, is permitted only for signs identifying the developed premises.

Setback measurement shall be from the right-of-way to the closest part of the sign, whether it be at or above grade. Sign regulations in this Section shall not apply to any conditional use or non-residential principal use located in the TD or I Districts, or to churches, multiple family dwellings, nursing homes or home occupations which are regulated elsewhere in this section.

### Section 510 Maintenance of Signs

Dilapidated sign structures which are likely to cause injury or degrade the surrounding area, and signs which advertise a closed business, past event or political election, are no longer legible, or are otherwise untimely or unsafe, are a nuisance or danger to the public. The zoning administrator is authorized to remove, or to have removed, all dangerous or nuisance signs, the cost of which is to be borne by the sign owner and/or property owner.

## ARTICLE VII CONDITIONAL USE PERMITS

### Section 701 Intent

Until recent years, the regulation of all uses of land and structures through zoning has been accomplished by assigning each use to one or more districts. However, the functions and characteristics of an increasing number of new kinds of land uses combined with some of the older, more familiar kinds of uses call for more flexibility and equitable procedure for properly accommodating these activities in the community. It should be recognized that the forces that influence decisions regarding the nature, magnitude, and location of such types of land use activities are many and varied depending upon functional characteristics, competitive situations and the availability of land. Rather than assign all uses to special, individual, and limited zoning districts, it is important to provide controllable and reasonable flexibility in requirements for certain kinds of uses, but that will, at the same time, maintain adequate provision for the security of the health, safety, convenience and general welfare of the community's inhabitants.

In order to accomplish such a dual objective, provision is made in this Ordinance not only for flexibility in individual district regulations, but also for a more detailed consideration of certain specified activities as each may relate to proposed conditions of location, design, size, operation, intensity of use, generation of traffic movements, concentration of population, processes and equipment employed, amount and kind of public facilities and services required, together with many other possible factors. Land and structure uses possessing these particularly unique characteristics are designated as Conditional Uses and may be authorized by the issuance of a Conditional Use Permit with such conditions and safeguards attached as may be deemed necessary for the protection of the public welfare.

The following sections (702 through 705), together with previous references in other sections (308 through 318), designate what uses require a Conditional Use Permit. With any exception noted, the procedures for obtaining such a permit apply to all conditional uses indicated.

### Section 702 Application Procedure

- (A) Any person having an interest in a property may file an application for a Conditional Use Permit for the zoning district in which the land is situated.
- (B) Applications shall be submitted through the Zoning Administrator to the Planning Commission. Each application shall be signed by the property owner and accompanied by the payment of a fee in accordance with the duly adopted "Schedule of Fees" to cover costs of processing the application. No part of any

fee shall be refundable.

- (C) Data Required in Application: Every application shall be accompanied by one copy of the following information and data:
- a) Conditional use form supplied by the Zoning Administrator filled out by the applicant.
  - b) Site plan drawn to a readable scale and containing that information specified in Article VI, Section 603 or 604.
  - c) A statement with supporting evidence regarding the required findings specified in Section 704.
- (D) Approval of a Conditional Use Permit shall be valid regardless of change of ownership, provided that all terms and conditions of the permit are met by all subsequent owners.
- (E) In instances where development authorized by a Conditional Use Permit has essentially changed in nature, extent or character, the Planning Commission shall review the permit in relation to the applicable standards and requirements of the Ordinance. Upon finding that there has been a violation in the conditions of the Conditional Use Permit granted under the provisions of this Ordinance, the Planning Commission may declare the permit null and void.
- (F) If development of a Conditional Use Permit has not commenced within one year from the date of issuance, said permit shall expire automatically. The Planning Commission can approve an extension for one additional year upon request by the applicant.

#### Section 703 Review and Findings

The Planning Commission shall approve, approve with conditions, or reject the application within sixty (60) days of the hearing based upon materials received and testimony recorded at the public hearing. The Planning Commission shall set forth the reasons for approval, denial, or modification of the conditional use permit application. All conditions shall be clearly specified in writing and be consistent with Sections 704 and 902(C). The petitioner has one year from date of hearing to comply with all specified conditions. Compliance shall occur prior to issuance of a zoning compliance permit by the Zoning Administrator pursuant to Section 905 and the commencement of the use, unless a specified time is set or implied in the motion granting the Conditional Use Permit.

#### Section 704 General Standards

The Planning Commission shall review the particular facts and circumstances of each proposal in terms of the following standards and shall find adequate evidence showing that the proposed use:

- (A) Will be designed, constructed, operated, and maintained to be harmonious and appropriate in appearance with the existing or intended character of the general vicinity and that the use will not change the essential character of the same area;
- (B) Will not be hazardous or disturbing to existing or future neighboring uses;
- (C) Will not diminish the value of land, buildings, or structures in the District;
- (D) Will be served adequately by essential public facilities and services, such as highways, streets, police and fire protection, drainage structures, refuse disposal, or schools, and that the persons or agencies responsible for the establishment of the proposed use shall be able to provide adequately any such service;
- (E) Will not create excessive additional requirements at public cost for public facilities and services and will not be detrimental to the economic welfare of the community;
- (F) Will not involve uses, activities, processes, materials and equipment and conditions of operation that will be detrimental to any person, property, or the general welfare by reason of excessive production of noise, traffic, smoke, fumes, glare, or odors;
- (G) Will protect the public health, safety and general welfare of the community; and
- (H) Will be consistent with the intent and purpose of the specific zoning district in which it is located.

(I) The following standards shall be used by the Planning Commission when considering Group Day Care Homes:

1. Is located not closer than 1,500 feet to any of the following:
  - a. Another licensed group day-care home.
  - b. Another adult foster care small group home or large group home licensed under the adult foster care facility licensing act, Act No. 218 of the Public Acts of 1979, being Sections 400.701 to 400.737 of the Michigan Compiled Laws.

3. Maintains the property consistent with the visible characteristics of the neighborhood.
4. Does not exceed 16 hours of operation during a 24-hour period. The Township may limit but not prohibit the operation of a group day-care home between the hours of 10 p.m. and 6 a.m.
5. Meets regulations, if any, governing signs used by a group day-care home to identify itself.
6. Meets regulations, if any, requiring a group day-care home operator to provide off-street parking accommodations for his/her employees.

#### Section 705 Conditions and Safeguards

- (A) Prior to granting any Conditional Use Permit, the Planning Commission may impose conditions or limitations upon the establishment, location, construction, maintenance or operation of the use authorized by the Conditional Use Permit as in its judgement may be necessary for the protection of the public interest. Conditions imposed shall further be designed to protect natural resources, the health, safety and welfare, as well as the social and economic well-being of those who will utilize the land use or activity under consideration, residents and landowners immediately adjacent to the proposed land use or activity and the community as a whole; and be consistent with the general standards listed in Section 704 of this Ordinance and therefore be necessary to meet the intent and purpose of the regulations contained therein.
- (B) Conditions and requirements stated as part of Conditional Use Permit authorization shall be a continuing obligation of land holders. The Zoning Administrator shall make periodic investigations of developments authorized by Conditional Use Permit to determine compliance with all requirements.
- (C) Conditional Use Permits may be issued for time periods as determined by the Planning Commission. Conditional Use Permits may be renewed in the same manner as originally applied for.
- (D) In authorizing a Conditional Use Permit, the Planning Commission may require that a cash deposit, certified check, bond or other financial guarantee acceptable to the Township, of ample sum be furnished by the developer to insure compliance with such requirements as drives, walks, utilities, parking, landscaping and the like. The financial guarantee shall be deposited with the Township Treasurer at the time of issuance of the permit authorizing the use or activity. As work progresses, the Planning Commission may authorize a proportional rebate of the financial guarantee upon completion of significant phases or improvements.

- (E) Revocation of a Conditional Use Permit by the Planning Commission shall be made at a public hearing following the same procedures as original approval to the effect that:

## ARTICLE VIII NONCONFORMING USES AND STRUCTURES

### Section 801 Intent

Nonconforming uses and structures are those which do not conform to a provision or requirement of this Ordinance but were lawfully established prior to the time of its applicability. Any previous Class A designation authorized by formal action through the Marquette County Planning Commission shall remain in effect. It is recognized that those nonconformities which adversely affect orderly development and the value of nearby property are not permitted to continue without restriction.

The zoning regulations established by this Ordinance are designed to guide the future use of land in Skandia Township by encouraging appropriate groupings of compatible and related uses and thus to promote and protect the public health, safety and general welfare. The continued existence of nonconformities is frequently inconsistent with the purposes for which such regulations are established.

This Ordinance distinguishes by class the various nonconforming uses and structures. In general, Class A nonconforming uses and structures have been found by the Planning Commission not to be contrary to the public health, safety, and general welfare, or the spirit of this Ordinance or the Township Comprehensive Plan or other standard in this ordinance and as such should either be encouraged or at a minimum not be discouraged to continue. In contrast, the Class B nonconforming uses and structures are not consistent with the aforementioned, and as such, should be not encouraged to exist by the Township. Different regulations are established for each class. The degree of restriction over each class is a function of the degree to which that class of nonconformity is a nuisance or incompatible with the purposes and regulations of this Ordinance.

Any use or structure created in violation of any preceding adopted township or county zoning ordinance remains a violation.

### Section 802 Class A Nonconforming Uses and Structures

Class A nonconforming uses and structures are those which have been so designated by the Planning Commission, after application by any interested person or the Zoning Administrator. The Planning Commission shall find that the continuance thereof would not be contrary to the public health, safety, and general welfare, or to the spirit of this Ordinance; that the use or structure does not and is not likely to significantly depress the value of nearby properties; that the use or structure was lawful at the time of its inception; that it meets the standards set out in Section 704 of this Ordinance; and that

no useful purpose would be served by strict application of the provisions or requirements of this Ordinance with which the use or structure does not conform.

#### Section 803 Procedure For Obtaining Class A Designation

A written application shall be filed with the Planning Commission utilizing forms obtained from the Zoning Administrator which shall include:

- (A) Name and address of property owner and applicant if not same;
- (B) A legal description of the property or lot;
- (C) A site plan pursuant to Section 603 or 604.
- (D) An explanation describing the present nonconforming use or structure.
- (E) An explanation of any proposed addition or alteration to the uses or structures.

The Planning Commission shall, upon receipt of said application, schedule a public hearing in accordance with the procedures set out in Section 902 of this Ordinance. Upon hearing the facts and information, the Planning Commission shall make its decision in writing and set forth the findings and reasons on which it is based, pursuant to the standards identified in Section 704. Conditions may be attached, including any time limit, where necessary to assure that the use or structure does not become contrary to the public health, safety, or welfare, or the spirit and purpose of this Ordinance.

#### Section 804 Provisions for Class A Nonconforming Uses and Structures

Where, at the effective date of adoption or amendment of this Ordinance, a lawful use of land exists that is no longer permissible under the terms of this Ordinance as enacted or amended, such use may be continued, so long as it remains otherwise lawful, subject to the following provisions:

- (A) No such Class A Nonconforming Use or Structure shall be enlarged or increased, or extended to occupy a greater area of land than was occupied at the effective date of adoption or amendment of this Ordinance, except with specific approval of the Planning Commission.
- (B) No such Class A Nonconforming Use or Structure shall be moved in whole or in part to any other portion of the lot or parcel occupied by such use at the effective date of adoption or amendment of this Ordinance, except with specific approval of the Planning Commission.
- (C) No Class A Nonconforming Use or Structure shall be extended to displace a permitted (conforming) use.
- (D) Class A Nonconforming Use or Structure shall not be changed to another nonconforming use, except with specific approval of the Planning Commission. Before granting such approval, the Planning Commission shall determine that such change in use will have a less deleterious effect on neighboring properties than the existing nonconforming use.

- (E) No Class A Nonconforming Use shall be expanded to add another nonconforming use, except with specific approval by the Planning Commission. The proposed nonconforming use shall satisfy the standards as set out in Section 704.
- (F) Class A Nonconforming Structures shall not be altered or expanded without the specific approval of the Planning Commission, except that the following structural alterations may be permitted without prior approval of the Planning Commission:
1. Structural alterations or additions increasing the bulk of a structure are permitted provided all regulations contained in this Ordinance are met.
  2. Structural alterations which do not add to the bulk of structure or increase the intensity of use of the structure.

#### Section 805 Regulations Pertaining to Class A Nonconforming Uses and Structures

No Class A Nonconforming Use or Structure shall be resumed if it has been discontinued for a continuous period of at least eighteen months or if it has been changed to a conforming use for any period. No Class A Structure shall be used, altered, or enlarged in violation of any condition imposed in its designation.

#### Section 806 Class B Nonconforming Uses and Structures

All nonconforming uses and structures not designated as Class A are considered as Class B. It is the purpose of this Ordinance to eliminate Class B Nonconforming Uses and Structures as rapidly as is permitted by law without payment of compensation. No Class B Nonconforming Use shall be resumed if it has been discontinued for a continuous period of at least eighteen (18) months or if it has been changed to a conforming use for any period, or if the structure in which such use is conducted is damaged by fire or other casualty to the extent that the cost of reconstruction or repair exceeds fifty (50) percent of the reproduction cost of such structure.

No Class B Nonconforming Structure shall be enlarged or structurally altered. No Class B Nonconforming Use shall be changed to a substantially different nonconforming use, nor enlarged so as to make use of more land area than was used at the time of becoming nonconforming. No Class B Nonconforming Use or Structure shall be permitted to continue in existence if it was unlawful at the time of its inception.

#### Section 807 General Standards

The Planning Commission shall review the particular facts and circumstances of each Class A proposal in terms of the intent of this Article and the general standards as set out in Section 704 of this Ordinance. Each individual proposal shall follow the procedure identified in Section 902 of this Ordinance.

### Section 808 Revocation of Class A Nonconforming Uses and Structures

Any Class A nonconforming use or structure maintained or used in violation of this Ordinance is a nuisance per se. Whenever the Zoning Administrator determines that a violation of this Ordinance exists, said Zoning Administrator shall issue a notice of violation. Such notice shall be directed to each property owner of or a party in interest in whose name the property appears on the last local tax assessment records. All notices shall be in writing and shall be served upon the person to whom they are directed personally, or in lieu of personal service may be mailed by regular mail, addressed to such owner or party in interest at the address shown on the tax records. An affidavit of mailing shall be maintained.

All violations of Class A nonconforming uses and structures shall be corrected within a period of time as specified on the notice of violation. A violation not corrected within this period shall be reported to the Planning Commission. The Planning Commission shall, upon receipt of said violation, schedule a public hearing in accordance with the procedures set out in Section 902 of this Ordinance. Upon hearing the facts and information, the Planning Commission shall make its decision to consider revocation of the Class A designation in writing and set forth the findings and reasons on which it is based.

### Section 809 Appeal of Granting, Denying, or Revocation of Class A Status

Any person aggrieved by the Planning Commission's granting or failure to grant a Class A status must appeal that decision to the Circuit Court of Marquette County, as provided by law (within 30 days).

Section 1201 Interpretation and Conflict

In interpreting and applying the provisions of this Ordinance, they shall be held to be the minimum requirements adopted for the promotion of the public health, safety, comfort, convenience, prosperity and general welfare. Unless specifically provided for, it is not intended by the Ordinance to repeal, abrogate, annul or in any way impair or interfere with the existing and unrepealed provision of law or ordinance or any rules, regulations, or permits previously adopted or issued pursuant to law relating to the use of building or land, provided, however, that where this Ordinance imposes a greater restriction upon the courtyards or other open spaces that are imposed or required by such existing provisions of law or ordinance or by such rules, regulations or permits, the provisions of this Ordinance shall control.

Section 1202 Severability

This Ordinance and the various parts, sections, subsections, and clauses, thereof, are hereby declared to be severable. If any part, sentence, paragraph, subsection, section, or clause is adjudged unconstitutional or invalid, it is hereby provided that the remainder of the Ordinance shall not be affected thereby. If any part, sentence, paragraph, subsection, section, or clause is adjudged unconstitutional, or invalid as applied to a particular property; building, or structure, it is hereby provided that the application of such portion of the Ordinance to other property, buildings, or structures shall not be affected thereby. Whenever any condition or limitation is included in an order authorizing any conditional use permit, variance, zoning compliance permit, site plan approval, or designation of Class A nonconformance, it shall be conclusively presumed that the authorizing officer or body considered such condition or limitation necessary to carry out the spirit and purpose of this Ordinance or the requirement of some provision thereof, and to protect the public health, safety, and welfare, and that the officer or board would not have granted the authorization to which the condition or limitation pertains except in the belief that the condition or limitation was lawful.

Section 1203 Vested Right

Nothing in this Ordinance should be interpreted or construed to give rise to any permanent vested rights in the continuation of any particular use, district, zoning classification or any permissible activities therein; and, they are hereby declared to be subject to subsequent amendment, change or modification as may be necessary to the preservation or protection of public health, safety, and welfare.

Section 1204 Penalties and Remedies

(A) Civil Law: Any building, structure, or use constructed, altered, moved or maintained in violation of the provisions of this Ordinance is hereby declared to be a nuisance per se.

(B) Civil Infraction- Violations of the provisions of this Ordinance or failure to comply with any of its requirements, including violations of conditions and safeguards established in connection with variances and conditional uses and violations of approved site plans, shall constitute a responsibility for a civil infraction violation, and upon finding of responsibility therefore shall be punishable by a fine of not more than two hundred dollars ( \$200.00) plus court costs for each offense. Each and every day on which the violation is committed or permitted to continue shall constitute a separate offense and shall be punishable as such hereunder.

(C) Remedies: The Township Board may also institute proceedings for injunction, mandamus, abatement or other appropriate remedies to prevent, enjoin, abate or remove any violations of this Ordinance. The rights and remedies provided herein are both civil and criminal in nature. The imposition of any fine, or jail sentence of both shall not exempt the violator from compliance with the provisions of this Ordinance.
