**Trumbull Township
Ashtabula County, Ohio**

Cover and Preface
by John T. McMahan, III

Trumbull Township was a dense, impenetrable forest used as a hunting ground for the Erie Indians for centuries. After the war of 1650 between the Erie Indians and the war-like Iroquois, this township became the hunting grounds of the Iroquois.

Trumbull Township remained a pristine wilderness untouched by any white men until the Treaty of Greenville was signed in 1795. At this point, on the brink of a new era in our history here in Trumbull Township only a few lingering Indians remained here. Some of these Indians were Chippewa who used Trumbull Township as their winter hunting grounds.

Traveling south from the remote outpost of Mechanicsville where Girdled Road crossed the Grand River, Daniel Woodruff became Trumbull Township's first permanent settler as he took up residence on the bluffs of Crooked Creek on State Road, today known as Higley Road.

The Crooked Creek Bluffs was where the first mills and outpost was developed in Trumbull Township. New pioneers continued to follow the State Road south, carefully navigating their wagons down the steep palisade, across Trumbull Creek and back up the other side where the road was carved out of the south bank running east to the top where their new lives were imminent.

Just 1000 feet east of this point from the top of the south bank, East Trumbull was formed a couple of years later after the village at the Crooked Creek Bluffs. East Trumbull was a growing outpost and became bigger than the Crooked Creek Bluffs as it became the focus village in Trumbull Township. About 20 years later, Isaac Phelps cut his way from East Trumbull to Trumbull Center in the mid 1830's. In 1841 Orson Grant and Lauren Foot began clearing a path to the awe inspiring ridge, west on Trumbull Creek where Lauren Foot would build his house that still remains in 2014 in the beautiful town that still bears his name today - Footville.

NONCONFORMITIES

300 PURPOSE.

Within the districts established by this Resolution, or by amendments thereto which may later be adopted, lots, uses of land, structures, and uses of structures and land in combination exist which were lawful before this Resolution was passed or amended, but which would be prohibited, regulated, or restricted under the terms of this Resolution. The legitimate interest of those who lawfully established these nonconformities are herein recognized by providing for their continuance, subject to regulations limiting their completion, restoration, reconstruction, extension, and substitution. Furthermore, nothing contained in this Resolution shall be construed to require any change in the layout, plans, construction, size or use of any lot, structure, or structure and land in combination, for which a zoning permit became effective prior to the effective date of this Resolution, or any amendment thereto. Nevertheless, while it is the intent of this Resolution that such nonconformities be allowed to continue until removed, they should not be encouraged to survive. Therefore, no nonconformity may be moved, extended, altered, expanded, or used as grounds for any other use(s) or structure(s) prohibited elsewhere in the district without the approval of the Board of Zoning Appeals, except as otherwise specifically provided for in this Resolution.

301 USES UNDER CONDITIONAL USE PROVISIONS NOT NON-CONFORMING USES.

Any use which is permitted as a conditional use in a district under the terms of this Resolution shall not be deemed a non-conforming use in such district, but shall without further action be considered a conforming use.

302 INCOMPATIBILITY OF NONCONFORMITIES.

Nonconformities are declared by this Resolution to be incompatible with permitted uses in the districts in which such uses are located. A nonconforming use of a structure, a nonconforming use of land, or a nonconforming use of a structure and land in combination shall not be extended or enlarged after passage of this Resolution by attachment on a building or premises of additional signs intended to be seen from off the premises, or by the addition of other uses of a nature which would be generally prohibited in the district in which such use is located.

310 AVOIDANCE OF UNDUE HARDSHIP.

To avoid undue hardship, nothing in this Resolution shall be deemed to require a change in the plans, construction, or designated use of any building on which actual construction was lawfully begun prior to the effective date of adoption or amendment of this Resolution and upon which actual building construction has been carried on diligently. Actual construction is hereby defined to include the placing of construction materials in permanent position and fastened in a permanent manner. Where demolition or removal of an existing building has been substantially begun preparatory to rebuilding, such demolition or removal shall be deemed to be actual construction, provided that the work shall be carried out diligently.

The Zoning Administrator may upon his own initiative, or shall upon the request of any owner, issue a certificate for any lot, structure, use of land, use of structure, or use of land and structure in combination, that certifies that the lot, structure or use is a valid nonconforming use. The certificate shall specify the reason why the use is a nonconforming use, including a description of the extent and kind of use made of the property in question, the portion of the structure or land used for the nonconforming use, and the extent that dimensional requirements are nonconforming. The purpose of this section is to protect the owners of lands or structures that are or become nonconforming. No fee shall be charged for such a certificate. One copy of the certificate shall be returned to the owner and one copy shall be retained by the Zoning Administrator, who shall maintain as a public record a file of all such certificates.

330 SUBSTITUTION OF NONCONFORMING USES.

So long as no structural alterations are made, except as required by enforcement of other codes or ordinances, any nonconforming use may, upon appeal to and approval by the Board of Zoning Appeals, be changed to another nonconforming use of the same classification or of a less intensive classification, or the Board shall find that the use proposed for substitution is equally appropriate or more appropriate to the district than the existing nonconforming use. In permitting such change, the Board may require that additional conditions and safeguards be met, which requirements shall pertain as stipulated conditions to the approval of such change, and failure to meet such conditions shall be considered a punishable violation of this Resolution. Whenever a nonconforming use has been changed to a less intensive use or becomes a conforming use, such use shall not thereafter be changed to a more intensive use.

340 SINGLE NON-CONFORMING LOTS OF RECORD.

In any district in which single-family dwellings are permitted, a single family dwelling and customary accessory buildings may be erected on any single lot of record at the effective date of adoption or amendment of this Resolution, notwithstanding limitations imposed by other provisions of this Resolution. Such lot must be in separate ownership and not of continuous frontage with other lots in the same ownership. This provision shall apply even though such lot fails to meet the requirements for area or width, or both, that are generally applicable in the district, provided that yard dimensions and requirements other than those applying to area or width, or both, of the lot shall conform to the regulations for the district in which such lot is located. Variances of requirements listed in Article 8 of this Resolution other than lot area or lot width shall be obtained only through action of the Board of Zoning Appeals as provided in Section 400 through 418.

341 NON-CONFORMING LOTS OF RECORD IN COMBINATION.

If two or more lots or a combination of lots and portions of lots with continuous frontage in single ownership are of record at the time of passage or amendment of this Resolution, and if all or part of the lots with no buildings do not meet the requirements established for lot width and area, the lands involved shall be considered to be an undivided parcel for the purposes of this Resolution, and no portion of said parcel shall be used or sold in a manner which diminishes compliance with lot width and area requirements established by this Resolution, nor shall any division of any parcel be made which creates a lot with a width or area below the requirements stated in this Resolution.

1. No such nonconforming structure may be enlarged or altered in a way which increases its nonconformity, but any structure or portion thereof may be altered to decrease its nonconformity;
2. Should such nonconforming structure or nonconforming portion of a structure be destroyed by any means, it shall not be reconstructed except in conformity with the provisions of this Resolution;
3. Should such structure be moved for any reason for any distance whatever, it shall thereafter conform to the regulations for the district in which it is located after it is moved.

If a lawful use involving individual structures, or of a structure and land in combination, exists at the effective date of adoption or amendment of this Resolution that would not be allowed in the district under the terms of this Resolution, the lawful use may be continued so long as it remains otherwise lawful, subject to the following provisions:

1. No existing structure devoted to a use not permitted by this Resolution in the district in which it is located shall be enlarged, extended, constructed, reconstructed, moved, or structurally altered except in changing the use of the structure to a use permitted in the district in which it is located;
2. Any nonconforming use may be extended throughout any parts of a building which were manifestly arranged or designed for such use at the time of adoption or amendment of this Resolution, but no such use shall be extended to occupy any land outside such building;

3. If no structural alterations are made, any nonconforming use of a structure or structure and land in combination, may, upon appeal to the Board of Zoning Appeals, be changed to another nonconforming use provided that the Board of Zoning Appeals shall find that the proposed use is equally appropriate or more appropriate to the district than the existing nonconforming use. In permitting such change, the Board of Zoning Appeals may require appropriate conditions and safeguards in accord with other provisions of this Resolution;
4. Any structure, or structure and land in combination, in or on which a nonconforming use is superseded by a permitted use, shall thereafter conform to the regulations for the district, and the nonconforming use may not thereafter be resumed;

In the event that any nonconforming building or structure is destroyed by any means to the extent of more than fifty (50) percent of the cost of replacement of such structure, exclusive of foundation, it shall not be rebuilt, restored, or reoccupied for any use unless it conforms to all regulations of this Resolution. When such a nonconforming structure is damaged or destroyed to the extent of fifty (50) percent or less of the replacement cost, no repairs or rebuilding shall be permitted except in conformity with all applicable regulations of this Resolution and the following conditions:

1. A Zoning Certificate pertaining to such restoration shall be applied for and issued within one (1) year of such destruction, and rebuilding shall be diligently pursued to completion.
2. Such restoration shall not cause a new nonconformity, nor shall it increase the degree of nonconformance or noncompliance existing prior to such damage or destruction.

390 REPAIRS AND MAINTENANCE.

On any nonconforming structure or portion of a structure containing a nonconforming use, work may be done on ordinary repairs, or on repair or replacement of non-bearing walls, fixtures, wiring, or plumbing, provided that the cubic content existing when it became nonconforming shall not be increased. Where appropriate, a building permit for such activities shall be required.

ARTICLE 4

PROCEDURES AND REQUIREMENTS FOR APPEALS AND VARIANCES

400 GENERAL.

Appeals and variances shall conform to the procedures and requirements of Sections 401 to 418 inclusive, of this Resolution. As specified in Section 1332, the Board of Zoning Appeals has appellate jurisdiction relative to appeals and variances.

401 APPEALS.

Appeals to the Board of Zoning Appeals concerning interpretation or administration of this Resolution may be taken by any person aggrieved or by any officer or bureau of the legislative authority of the Township affected by any decision of the Zoning Administrator. Such appeal shall be taken within twenty (20) days after the decision by filing, with the Zoning Administrator and with the Board of Zoning Appeals, a notice of appeal specifying the grounds upon which the appeal is being taken. The Zoning Administrator shall transmit to the Board of Zoning Appeals all the papers constituting the record upon which the action appealed was taken.

402 STAY OF PROCEEDINGS.

An appeal stays all proceedings in furtherance of the action appealed from, unless the Zoning Administrator from whom the appeal is taken certifies to the Board of Zoning Appeals after the notice of appeal is filed with him, that by reason of facts stated in the application, a stay would, in his opinion, cause imminent peril to life and property. In such case, proceedings shall not be stayed other than by a restraining order which may be granted by the Board of Zoning Appeals or by a court of record on application, on notice to the Zoning Administrator from whom the appeal is taken on due cause shown.

410 VARIANCES.

The Board of Zoning Appeals may authorize upon appeal in specific cases such variance from the terms of this Resolution as will not be contrary to the public interest where, owing to special conditions, a literal enforcement of the provisions of this Resolution would result in unnecessary hardship. No nonconforming use of neighboring lands, structures, or buildings in the same district and no permitted or nonconforming use of lands, structures, or buildings in other districts shall be considered grounds for issuance of a variance. Variances shall not be granted on the grounds of convenience or profit, but only where strict application of the provisions of this Resolution would result in unnecessary hardship.

411 APPLICATION AND STANDARDS FOR VARIANCES.

Except as otherwise permitted in this Resolution, no variance in the strict application of the provisions of this Resolution shall be granted by the Board of Zoning Appeals unless the Board shall find that the written application for the requested variance contains all of the following requirements:

1. Name, address, and telephone number of applicant(s);
2. Legal description of property;
 - a. Proof of ownership

3. Description or nature of variance requested;
4. A fee as established by resolution;
5. Narrative statements establishing and substantiating that the variance conforms to the following standards:
 - a. The granting of the variance shall be in accord with the general purpose and intent of the regulations imposed by this Resolution on the district in which it is located, and shall not be injurious to the area or otherwise detrimental to the public welfare.
 - b. The granting of the variance will not permit the establishment of any use which is not otherwise permitted in the district.
 - c. There must exist special circumstances or conditions, fully described in the findings, applicable to the land or buildings for which the variance is sought, which are peculiar to such land or buildings and do not apply generally to land or buildings in the area, and which are such that the strict application of the provisions of this Resolution would deprive the applicant of the reasonable use of such land or buildings. Mere loss in value shall not justify a variance; there must be deprivation of beneficial use of land.
 - d. There must be proof of hardship created by the strict application of this Resolution. It is not sufficient proof of hardship to show that greater profit would result if the variance were granted. Furthermore, the hardship complained of cannot be self-created; nor can it be established on this basis by one who purchases with or without knowledge of the restrictions; it must result from the application of this Resolution; it must be suffered directly by the property in question; and evidence of variances granted under similar circumstances need not be considered.
 - e. The granting of the variance is necessary for the reasonable use of the land or building, and the variance as granted is the minimum variance that will accomplish this purpose.
 - f. The proposed variance will not impair an adequate supply of light and air to adjacent property, substantially increase the congestion in the public streets, increase the danger of fire, endanger the public safety, or substantially diminish or impair property values of the adjacent area.
 - g. The granting of the variance requested will not confer on the applicant any special privilege that is denied by this regulation to other lands, structures, or buildings in the same district.

412 ADDITIONAL CONDITIONS AND SAFEGUARDS.

The Board may further prescribe any conditions and safeguards that it deems necessary to insure that the objectives of the regulations or provisions to which the variance applies will be met. Any violation of such conditions and safeguards, when they have been made a part of the terms under which the variance has been granted, shall be deemed a punishable violation under this Resolution.

413 PUBLIC HEARING BY THE BOARD OF ZONING APPEALS.

The Board of Zoning Appeals shall hold a public hearing within thirty (30) days after the receipt of an application for an appeal or variance from the Zoning Administrator or an applicant.

414 NOTICE OF PUBLIC HEARING IN NEWSPAPER.

Before conducting the public hearing required in Section 413, notice of such hearing shall be given in one or more newspapers of general circulation in the Township at least ten (10) days

before the date of said hearing. The notice shall set forth the time and place of the public hearing, and the nature of the proposed appeal or variance.

415 NOTICE TO PARTIES IN INTEREST.

The notice shall contain the same information as required of notices published in newspapers as specified in Section 414.

416 ACTION BY BOARD OF ZONING APPEALS.

Within thirty (30) days after the public hearing required in Section 413, the Board of Zoning Appeals shall either approve, approve with supplementary conditions as specified in Section 412, or disapprove the request for appeal or variance. The Board of Zoning Appeals shall further make a finding in writing that the reasons set forth in the application justify the granting of the variance that will make possible a reasonable use of the land, building or structure. Appeals from Board decision shall be made in the manner specified in Section 1340.

417 TERM OF VARIANCE.

No order of the Zoning Board of Appeals granting a variance shall be valid for a period longer than twelve (12) months from the date of such order unless the building permit or zoning approval is obtained within such period, and the erection or alteration of a building is started or the use is commenced within such period.

418 AUTHORIZED VARIANCE.

Variances from the regulations of this Resolution shall not be granted unless the Board makes specific findings of fact, based directly on the particular evidence presented to it, which support conclusions that the standards and conditions imposed in Section 411, and Section 412 if applicable, have been met by the applicant. Variances may be granted as guided by the following:

1. To permit any yard or setback less than the yard or setback required by the applicable regulations.
2. To permit the use of a lot or lots for a use otherwise prohibited solely because of the insufficient area or width of the lot or lots, but generally the respective area and width of the lot or lots should not be less than eighty (80) percent of the required area and width.
3. To permit the same off-street parking facility to qualify as required facilities for two or more uses, provided that substantial use of such facility by each user does not take place at approximately the same hours of the same days of the week.
4. To reduce the applicable off-street parking or loading facilities required, but generally by not more than thirty (30) percent of the required facilities.
5. To allow for the deferment of required parking facilities for a reasonable period of time, such period of time to be specified in the variance.
6. To increase the maximum distance that required parking spaces are permitted to be located from the use served, but generally not more than forty (40) percent.
7. To increase the maximum allowable size or area of signs on a lot, but generally by not more than twenty-five (25) percent.
8. To increase the maximum gross floor area of any use so limited by the applicable regulations, but generally not more than twenty-five (25) percent.

Toward these ends, it is recognized that this Resolution should provide for more detailed evaluation of each use conditionally permissible in a specific district with respect to such considerations as location, design, size, method(s) of operation, intensity of use, public facilities requirements, and traffic generation. Upon making a determination that a proposed use is substantially similar, the Board shall notify the Township Trustees of its decision and shall include in its written findings the reasoning upon which the decision is based. 720 ZONING DISTRICT MAP.

The districts established in Section 710, as shown on the Official Zoning Map, which, together with all data, references, explanatory material and notations thereon, are hereby officially adopted as part of this Resolution and hereby incorporated by reference herein, thereby having the same force and effect as if herein fully described in writing.

721 ZONING MAP LEGEND.

There shall be provided on the Official Zoning Map a legend which shall list the name of each zoning district and indicate the symbol for that district. A color, combination of colors, or black and white patterns may be used in place of symbols to identify the respective zoning districts in such legend. In addition to such legend, the Official Zoning Map shall provide sufficient space for compliance with Section 725.

722 IDENTIFICATION OF OFFICIAL ZONING MAP.

The Official Zoning Map shall be properly identified by the signature of the Chairman of the Board of Township Trustees, as attested by the Township Clerk, and bearing the official seal. ARTICLE 9

SUPPLEMENTARY DISTRICT REGULATIONS

900 GENERAL.

The purpose of supplementary district regulations is to set specific conditions for various uses, classifications of uses, or areas wherein problems may occur, in order to alleviate or preclude such problems, and to promote the harmonious exercise of property rights without conflict.

901 CONVERSIONS OF DWELLINGS TO MORE THAN ONE UNIT.

A residence may not be converted to accommodate an increased number of dwelling units unless all of the following conditions are met:

1. The conversion is in compliance with all other local codes and ordinances, and any applicable State or Federal regulations;
2. The district within which the residence is located is so regulated as to allow such an increase in dwelling units;
3. The yard dimensions still meet the yard dimensions required by the zoning regulations for new structures in that district;
4. The lot area per family equals the lot area requirements for new structures in that district;
5. The floor area per dwelling unit is not reduced to less than that which is required for new construction in that district;
6. The conversion is in compliance with all other relevant codes and ordinances.

902 PRINCIPAL BUILDING PER LOT.

No more than one principal building or structure may be constructed upon any one lot for the purposes of this Resolution. Rear dwellings shall be prohibited and shall be considered non-conforming uses subject to the requirements of Article 3 of this Resolution.

903 REDUCTION OF AREA OR SPACE.

No lot, yard, parking area, or other space shall be reduced in area or dimension if such reduction has the effect of making the lot, yard, parking area, or other space less than the minimum required by this Resolution. Furthermore, any lot, yard, parking area, or other space which is already less than the required minimum shall not be reduced further. However, nothing in this section shall be interpreted to limit the power of the Board of Zoning Appeals in the granting of variances under this Resolution.

904 CONSTRUCTION IN EASEMENTS.

Easements for installation, operation and maintenance of utilities and drainage facilities are reserved as shown on each plat when recorded or otherwise established. Within these easements, no permanent building or structure shall be placed or permitted which may damage or which may interfere with the installation, operation, and maintenance of such utilities or which may change the normal direction of flow of drainage channels within the easement. The easement area of each lot, and any improvements within it, shall be maintained continuously by the owner of the lot, except for those improvements for which a public authority or a utility is responsible.

905 PARKING AND STORAGE OF VEHICLES AND TRAILERS.

1. The parking of a disabled vehicle as defined in Article 2 for a period of more than two (2) weeks shall be prohibited in all districts, unless such a vehicle is stored in an enclosed garage or accessory building.
2. A maximum of one boat over 18 feet in length and two boats less than 18 feet and one unoccupied recreational vehicle with current license may be stored in the rear yard or the side yard behind the principle building front foundation line on any residentially zoned property if they are not disabled and meet the requirements of this Resolution for accessory structures.
3. No commercial vehicles, to include commercial tractors, automobiles, trucks, buses, house trailers, semi-trailers, shall be parked or stored on any property within a residential zoning district other than in a completely enclosed building, except:
 - a. Those commercial vehicles conveying the necessary tools, materials, and equipment to a premises where labor using such tools, materials, and equipment is to be performed during the actual time of parking;
 - b. All vehicles with current licenses owned by a resident of said property not to exceed ten thousand pounds (10,000 lbs.) gross vehicle weight (GVW).

906 REQUIRED REFUSE COLLECTION AREAS.

The refuse collection areas provided by all commercial, industrial, and multifamily residential uses for the collection of trash, garbage, and other refuse shall be enclosed on three sides by a solid wall or fence of at least four (4) feet in height, unless within an enclosed building or structure. Provisions shall be made for regular and adequate vehicular access to such areas for collection purposes, as determined necessary by the Zoning Administrator. In addition, the following requirements shall be met:

1. The storage of hazardous or toxic materials or wastes shall not be permitted without documented approval of the Ohio Environmental Protection Agency;
2. Materials or wastes which might cause fumes or dust or otherwise constitute a fire hazard, or which may attract rodents or insects, shall be stored only in closed containers constructed of impervious materials;
3. Storage areas in residential districts shall utilize such additional screening as required in this Resolution.

907 JUNK.

The accumulation or storage of junk, junk vehicles, disabled or inoperative machinery or equipment, vehicles or machinery parts, rags, or any other discarded objects or debris defined as junk in the Ohio Revised Code Sec. 4737.05 shall be prohibited, outside of an approved junk yard, in order to protect residents from conditions conducive to the infestation and breeding of vermin, insects, and rodents, and to preserve property values.

908 OUTSIDE STORAGE AND REFUSE COLLECTION.

1. Commercial
 - a. The refuse collection areas provided by all non-residential uses in the C District to temporarily store trash, garbage, scrap or other refuse shall be enclosed on three sides by a solid wall or fence of at least four (4) feet in height unless the storage area is within an enclosed building or structure. Provisions shall be made for regular and adequate vehicular access to such areas for collection purposes, as determined necessary by the Zoning Administrator.

- b. All inventory, materials, equipment and machinery must be kept within buildings. Exceptions to this are:
 - 1. lumber, building supplies, gardening supplies & plants, and agricultural supplies commonly stored in fenced yards connected with allowable uses;

Provisions shall be made for regular and adequate vehicular access to such areas for collection purposes, as determined necessary by the Zoning Administrator;
 - b. All permitted uses and accessory activities shall be confined within completely enclosed buildings with the exception of off-street parking spaces, off-street loading areas, accessory fuel storage, attached storage tanks, HVAC units and employee recreational facilities. In addition, the temporary outdoor storage of materials, equipment or vehicles in an orderly manner is permitted in any areas other than in required front, rear or side yards, provided such outdoor storage does not exceed 15 feet in height or occupy more than ten percent of the area of the lot, and is effectively screened from residential uses, as in the case of parking areas.

910 SUPPLEMENTAL YARD AND HEIGHT REGULATIONS.

In addition to the regulations specified in Article 8 and in other sections of this Resolution, Sections 911 through 916 inclusive shall be used for clarification and interpretation.

Multi-family dwellings shall be considered as one (1) building for the purpose of determining front, side, and rear yard requirements. The entire group as a unit shall require one (1) front, one (1) rear, and two (2) side yards as specified for dwellings in the appropriate district. Each individual building shall meet all yard requirements for the appropriate district as though it were on an individual lot.

914 SIDE AND REAR YARD REQUIREMENTS FOR NONRESIDENTIAL USES ABUTTING RESIDENTIAL DISTRICTS.

Nonresidential buildings or uses shall not be located nor conducted closer than sixty (60) feet to any lot line of a residential district, except that the minimum yard requirements may be reduced to fifty (50) percent of the requirement if acceptable landscaping or screening approved by the Zoning Administrator is provided. Such screening shall be a masonry wall or solid fence between four (4) and eight (8) feet in height maintained in good condition and free of all advertising or other signs. Landscaping provided in lieu of such wall or fence shall consist of a strip of land not less than twenty (20) feet in width planted with an evergreen hedge or dense plantings of evergreen shrubs not less than four (4) feet in height at the time of planting. Neither type of screening shall obscure traffic visibility as required by Section 917 of this Resolution.

915 EXCEPTIONS TO HEIGHT REGULATIONS.

The height limitations contained in the Official Schedule of District Regulations do not apply to spires, belfries, cupolas, antennas, water tanks, ventilators, chimneys, or other appurtenances usually required to be placed above the roof level and not intended for human occupancy except where the height of such structures will constitute a hazard to the safe landing and take-off of aircraft at an established airport.

916 ARCHITECTURAL PROJECTIONS.

Open structures such as porches, canopies, balconies, platforms, carports, covered patios, and similar architectural projections shall be considered parts of the building to which attached and shall not project into the require minimum front, side or rear yard.

917 VISIBILITY AT INTERSECTIONS.

On a corner lot at the intersection of two streets in any district, nothing shall be installed, erected, placed, planted, or allowed to grow in such manner as to impede vision materially between a height of two and one half (2 ½) feet and ten (10) feet above the center line grades of the intersecting streets in the area bounded by the right-of-way lines of such corner lot and a line joining points along said street lines fifty (50) feet from the point of intersection. On a corner lot at the intersection of two alleys, or at the intersection of an alley and a street within any district, nothing shall be installed, erected, placed, planted, or allowed to grow in such manner as to impede vision materially between a height of two and one half (2 ½) feet and ten (10) feet above the center line grades of the intersecting alleys, or of the intersecting alley and street, in the area bounded by the right-of-way lines of such corner lot and a line joining points along said alley lines, or alley and street lines, twenty-five (25) feet from the point of intersection.

920 OBJECTIONABLE, NOXIOUS, OR DANGEROUS USES, PRACTICES, OR CONDITIONS.

No land or building in any district shall be occupied or used in any manner which creates or contributes to the existence of conditions which are dangerous, injurious, harmful, noxious, or objectionable, or which may otherwise adversely affect surrounding areas or adjoining premises, except that any use permitted by this Resolution may be undertaken or maintained if acceptable measures and safeguards to reduce any dangerous or objectionable conditions to acceptable limits, as established in this Section, are properly exercised. Specifically, the occupation or use of any land or building in any district shall be in violation of this Resolution if one or more of the following conditions is found to exist at any time:

1. The use or storage of flammable or explosive materials is not adequately protected by fire-fighting and fire-protection equipment or by such safety devices as are normally required for such activities;
2. Activities involving the use and storage of flammable and explosive materials are not removed from adjacent facilities or activities to a distance compatible with the potential danger involved;
3. Radioactivity or air pollution is present in violation of the regulations of the Ohio Environmental Protection Agency;
4. Hazardous wastes are present in violation of the regulations of the Ohio Environmental Protection Agency;
5. Objectionable noise as determined by the Zoning Administrator due to volume, frequency or beat is present;
6. Vibration discernible by the Zoning Administrator without instruments is present on an adjoining lot or property;
7. Direct or reflected glare is present which is visible from any street or from any property not within a manufacturing district;
8. Erosion caused by wind or water is carrying objectionable substances onto any adjacent lot or property;

9. Water pollution or contamination is present in violation of the regulation of the Ohio Environmental Protection Agency.
10. Conditions or operations which result in the creation of odors of such intensity and character as to be detrimental to the health and welfare of the public or which interferes unreasonably with the comfort of the public. If the odors start after operations, the activity shall be removed or modified to remove the odor.
11. Any planned or intentional source of electromagnetic radiation for such purposes as communication, experimentation, entertainment, broadcasting, heating, navigation, therapy, vehicle velocity measurement, weather survey, aircraft detection, topographic survey, personal pleasure or associated uses which do not conform with the current Federal Communication's Commission's regulations.
12. Discharge at any point into any public or private sewage disposal system or stream, or into the ground, of any liquid or solid materials except in accordance with OEPA's, Ashtabula County Sanitary Engineer's Office and the Ashtabula County Health Department's regulations.
13. Also prohibited in all districts are dangerous pets as defined in Article 2.

921 ASSURANCE REQUIREMENTS AND PLANS.

Prior to the issuance of a zoning permit, the Zoning Administrator may require the submission of written assurances and plans indicating the manner in which dangerous and objectionable aspects or elements of processes or operations entailed in certain uses or occupations are to be eliminated or reduced to acceptable limits and tolerances.

922 ENFORCEMENT PROVISIONS.

Any occupancy, use, conditions, or circumstances existing in violation of Section 920 and 921 of this Resolution shall constitute a violation of this Resolution and be subject to the enforcement Procedures contained in Sections 1470-1473 of this Resolution.

930 TEMPORARY USES.

The following regulations are necessary to govern certain uses which are of a non-permanent nature. For such uses requiring temporary zoning permits, at least seven (7) days before the instigation of such use an application for a zoning permit shall be made to the Zoning Administrator, which shall contain a graphic description of the property to be used, a description of the proposed use, and a site plan, with sufficient information to determine the yard, setback, parking, and sanitary facility requirements for the proposed temporary use.

The following uses are deemed to be temporary uses and shall be subject to the specified regulations and time limits which follow, as well as the regulations of any district in which they are located:

1. Real estate sales offices, which shall contain no living accommodations, shall be permitted within any district for any new subdivision for a period of one year, except that two (2) six-month extensions may be granted if conditions warrant. Such offices shall be removed upon the completion of the sales of the lots therein, or upon the expiration of the zoning permit, whichever occurs first.
2. Temporary buildings, offices, and equipment and storage facilities required in conjunction with construction activities may be permitted within any district for a period of one year, except that six-month extensions may be granted if construction is substantially underway. Such uses shall be removed immediately upon completion of the construction, or upon expiration of the zoning permit, whichever occurs first.
3. Temporary retail sales of plants, flowers, and other farm produce, on lots or parking lots, including any lot on which an existing business is operating or on which a business is vacated, may be permitted for any individuals or organizations in any

commercial district. A zoning permit valid for a period not to exceed two (2) consecutive weeks shall only be issued three (3) separate times for any particular lot within any twelve-month period, and not more than one permit may be issued at the same time for any lot. This section shall not be interpreted to prohibit any such use in any case where a valid covenant or deed restriction specifically authorizes such use. In any case, the zoning permit shall be prominently displayed at the site. Temporary permits are not required for sales of agricultural produce on the zone lot on which said produce is grown.

4. Garage sales, which for the purpose of this section shall include yard sales, barn sales, and similar activities, may be permitted within any district in which dwellings are permitted.
 - a. Any individual, organization or family may conduct one (1) such sale within any twelve-month period upon the property at which he or they reside for a period not to exceed fourteen (14) consecutive days without obtaining a zoning permit, so long as the provisions of this Resolution pertaining to signs and parking are observed;
 - b. Garage sale permits shall only be issued to neighborhood and community organizations two (2) times within any twelve (12) month period for a period not to exceed three (3) consecutive days, so long as the provisions of this Resolution pertaining to signs & parking are observed.

940 SCREENING.

Screening or buffering in compliance with the provisions of this Section shall be provided for any permitted or conditionally permitted non-residential uses which abut any residential district, in addition to setback and yard requirements provided elsewhere in the Resolution. Applicants for a zoning permit may request a variance from yard or setback requirements in conjunction with a plan for screening, which the Board of Zoning Appeals may consider by weighing the relationship of the proposed screening plan and the requested dimensional variance with respect to their joint impact upon neighboring properties. Such requested variance for a conditionally permitted use shall be incorporated in the conditional use procedure specified in Article 5 of this Resolution.

The following provisions shall apply with respect to screening.

1. Screening shall be provided for one or more of the following purposes:
 - a. A visual barrier to partially or completely obstruct the view of structures or activities;
 - b. An acoustic screen to aid in absorbing or deflecting noise;
 - c. A physical barrier to contain debris and litter.
2. Screening may consist of one of the following, or a combination of two or more, as determined by the Zoning Administrator or Board of Zoning Appeals, in the event of an appeal, variance, or conditional use:
 - a. A solid masonry wall;
 - b. A solidly constructed decorative fence;
 - c. A louvered fence;
 - d. A dense vegetative plantings;
 - e. A landscaped mounding.
3. Height of screening shall be in accordance with the following:
 - a. Visual screening walls, fences, plantings, or mounds shall be a minimum of 5 ½ feet high in order to accomplish the desired screening effect, except in required front yards where maximum height shall be not greater than 2 ½ feet. Plantings shall be a minimum of 4 feet in height at the time of planting;

- b. A dense vegetative planting with a minimum height of 4 feet at planting and a mature height of at least 5 ½ feet or greater, or a solidly constructed decorative fence, shall be permanently maintained along the mutual boundary of an accessory parking area and adjacent land zoned for residential uses, except for the portion of such boundary located within a required front yard.
- 4. Screening for purposes of absorbing or deflecting noise shall have a depth of at least 15 feet of dense planting or a solid masonry wall in combination with decorative plantings. The height shall be adequate to absorb noise as determined by the Zoning Administrator in relation to the nature of the use.
- 5. Whenever required screening is adjacent to parking areas or driveways, such screening shall be protected by bumper blocks, posts, or curbing to avoid damage by vehicles.

Computation of Area of Individual Signs: The area of a sign face (which is also the sign area of a wall sign or other sign with only one face) shall be computed by means of the smallest square, circle, rectangle, triangle, or combination thereof that will encompass the extreme limits of the writing, representation, emblem, or other display, together with any material or color forming an integral part of the background of the display or used to differentiate the sign from the backdrop or structure against which it is placed, but not including any supporting framework, bracing, or decorative fence or wall when such fence or wall otherwise meets zoning resolution regulations and is clearly incidental to the display itself.
2. Computation of Area of Multifaced Signs: The sign area for a sign with more than one face shall be computed by adding together the area of all sign faces visible from any one point. When two identical sign faces are placed back to back, so that both faces cannot be viewed from any point at the same time, and when such sign faces are part of the same sign structure and are not more than 42 inches apart, the sign area shall be computed by the measurement of one of the faces
3. Computation of Height: The height of a sign shall be computed as the distance from the base of the sign at normal grade to the top of the highest attached component of the sign. Normal grade shall be construed to be the lower of (1) existing grade prior to construction or, (2) the newly established grade after construction, exclusive of any filling, berming, mounding, or excavating solely for the purpose of locating the sign. In

cases in which the normal grade cannot reasonably be determined, sign height shall be computed on the assumption that the elevation of the normal grade at the base of the sign is equal to the elevation of the nearest point of the crown of a public street or the grade of the land at the principal entrance to the principal structure on the zone lot, whichever is lower.

1450 STOP WORK ORDER.

Subsequent to his determination that work is being done contrary to this Resolution, the Zoning Administrator shall write a stop work order and post it on the premises involved. Removal of a stop work order, except by the order of the Zoning Administrator, shall constitute a punishable violation of this Resolution.

Service shall be deemed complete when the fact of mailing is entered of record, provided that the ordinary mail envelope is not returned by the postal authorities with an endorsement showing failure of delivery; or
3. By posting a copy of the notice form in a conspicuous place on the premises found in violation.

The owner or tenant of any building, structure, premises, or part thereof, and any architect, builder, contractor, agent, or other person who commits, participates in, assists in, or maintains such violation may each be found guilty of a separate offense and suffer the penalties herein provided.

1473 ADDITIONAL REMEDIES.

Nothing in this Resolution shall be deemed to abolish, impair or prevent other additional remedies as provided by law. In the event of a violation of any provision or requirement of this Resolution, or in the case of an imminent threat of such a violation, the Zoning Administrator, the County Prosecutor, or the owner of any neighboring property who would be especially damaged by such violation, may, in addition to other recourses provided by law, institute mandamus, injunction, abatement, or other appropriate actions to prevent, remove, abate, enjoin, or terminate such violation.

ARTICLE 15

WIRELESS TELECOMMUNICATIONS TOWERS, OTHER TOWER STRUCTURES AND FACILITIES

1500 PURPOSE

To provide for the common good and preserve the enjoyment of private property through the regulation of the construction, placement, and modification, of wireless telecommunications systems, including telecommunications towers and associated facilities, while ensuring the ability of the consumer to use and enjoy telecommunications services of all types, and to protect the right of private and public enterprise to exercise free trade.

Furthermore, to all extent permitted by law, Trumbull Township shall apply these regulations to specifically accomplish the following:

1. Accommodate the need for wireless telecommunications towers, radio, television, microwave and other tower structures and facilities to further meet the public's demand for the use and convenience of these service, while regulating their location and number in residential zoning districts of the Township;
2. To encourage the location of towers and facilities on non-residential land;
3. To minimize the total number of towers and facilities;
4. To ensure towers and antennas are configured in such a way as to minimize adverse visual impact by design, careful siting, landscape screening, camouflaging, and innovative techniques brought about through the advance of science and technology;
5. To avoid damage to adjacent properties from tower failure through competent engineering, construction and erection of towers;
6. To ensure that a competitive and broad range of wireless personal communications services and high quality telecommunications infrastructures are provided to serve the residents, businesses, public sector and visitors to the Township;
7. To create and preserve a wireless telecommunications facilities system which will serve as an effective part of the Township's emergency response network; and,
8. To accommodate the public's demand for present day wireless personal communications services through these standards, so that changing technologies will continue to serve these needs, while concurrently preserving the Township's aesthetic and ecological integrity, so that residents of the future may continue to enjoy the comfortable living standards of Trumbull Township.

30. Zoning District: A zoning district established by Trumbull Township for purposes of this article is synonymous with ”zoning classification”.

1502 LOCATION CRITERIA

Wireless telecommunications monopoles are not encouraged in residential areas because their use is industrial in nature, and may be objectionable in the community at large because they are frequently considerably taller than surrounding structures, causing them to be seen from long distances. Their location is therefore regulated as permitted by the Telecommunications Act of 1996, as may from time to time be amended, the Ohio Revised Code, and by other operation by law as may be applicable.

1. Priority: In order to accommodate the communications needs of residents and businesses while protecting the public health, safety, and general welfare, Trumbull Township permits and encourages the placement of wireless telecommunications facilities and monopoles in non-residential areas, in the following order of preference:
 - 1st : Township-owned property, except parks;
 - 2nd : Light Manufacturing/Industrial;
 - 3rd : Quasi-public property;
 - 4th : Commercial; and
 - 5th : Other non-residential districts.
2. Collocation: When a wireless telecommunications facility is located in conformity with this article, and the antenna(s) is (are) collocated as herein defined, and is (are) attached to an institutional, recreational, public utility, office, industrial, or commercial structure or building, equipment and apparatus supporting a facility, shall be stored on the premises inside the wireless telecommunications equipment building or other structure on the premises of the facility.

1503 REGULATION OF MONOPOLES IN RESIDENTIAL ZONING DISTRICT

In addition to the definitions of ”monopole”, for the purpose of this article, the following shall be regulated by this section.

1. Monopoles located in Residential Zoning Districts Generally:

- a. Sole Use on a Lot: A wireless telecommunications monopole and related facilities are permitted as the sole use on a lot, and may be permitted, by approval of the Board of Zoning Appeals, on lots containing other uses where existing structures enable collocation, including on township owned property.
- b. Minimum Lot size: The minimum lot size on which a wireless telecommunications tower and related facilities are placed shall be the minimum lot size required for the underlying zoning district.
- c. Setbacks: For purposes of this article only, any provision of the Trumbull Township Zoning Resolution notwithstanding, the setback for a monopole of any variety, is placed in the ground to the property line.
 - A. All monopole in residential zoning districts shall be set back at least 150% (one and one-half times) of the total height of the monopole. The Township suggests that the same monopole setback be used in all other zoning districts.
 - B. Guyed wires may be anchored within the required setback area only if the monopole itself is placed in conformity with this article regarding its setbacks, but guyed wires and other similar supporting devices shall not be anchored any less than 20 feet from any adjoining parcel or lot, regardless of its underlying zoning district.
 - C. An equipment building and all other structures except the tower, shall be set back the minimum distance required in the underlying zoning district.

2. Design Requirements, Monopoles and Facilities:

- a. Any wireless telecommunication monopoles shall be designed, structurally and electrically, to accommodate both the applicant's antenna and at least comparable antennas for at least two additional service providers if the monopole is at least 100 feet in total height, or for one additional service provider if the monopole is at least 60 feet in total height. Monopoles shall be designed to allow for future rearrangement of antennas on the monopoles and to accept antennas mounted at various heights.
- b. Monopoles and antennas, as well as all wireless telecommunications facilities, shall be designed and situated upon a lot so as to minimize their visibility and to the greatest extent possible to blend into the surrounding environment.
- c. Monopoles shall be designed, constructed, erected, and maintained with the utmost care for safety of persons and property.
- d. Monopoles shall be monopoles.

3. Monopole Height:

- a. Maximum Height: The maximum height of a monopole shall not exceed 200 feet, unless a technically logical reason for locating a higher monopole is demonstrated to the satisfaction of the Board of Zoning Appeals to be in order, on a case by case basis, by the wireless telecommunications service provider making the request. When a higher monopole is required by provision of law consistent with the Telecommunications Act of 1996, as may from time to time be amended, the provider shall submit written verification of such fact. Monopoles less than 200 feet in height are especially encouraged.

- b. Collocation Ability: The physical ability to collocate antennas on any tower is required on all monopoles higher than 60 feet in height, unless it can be demonstrated that because of the type of monopole involved for a given proposal and/or for other technically logical reasons, the physical ability to collocate on such a monopole above 60 feet in height is not feasible, or desired. A monopole of 100 feet or higher should be designed to have sufficient structure capacity to accommodate at least three providers.
4. Interrelationship of Monopole and Related Structures: A monopole and its related wireless telecommunications equipment building and other structures, landscaping, and other features, if any, shall be located on a single lot. The provider shall locate a monopole and related wireless telecommunications facilities only on a lot of sufficient dimensions and conditions to accommodate the overall facility, monopole, etc., so that all minimum setbacks and any other zoning requirements of the underlying non-residential zoning district are met.
 5. Underground Facilities: Underground wireless telecommunications equipment buildings are especially encouraged, especially on lots abutting residential zoning districts where a monopole is placed.

1504 AESTHETICS OF MONOPOLES AND RELATED WIRELESS TELECOMMUNICATION FACILITIES IN RESIDENTIAL ZONING DISTRICTS

The provisions of this section pertain to monopoles and all other wireless telecommunications facilities and structures in all residential zoning districts. The following should be included in completed plans submitted for approval.

1. Landscaping: All monopoles and related wireless telecommunications facilities shall be located in a landscaped setting. A landscaped buffer area of not less than 10 feet in depth shall be placed between the wireless telecommunications facility and the public right-of-way, a residential zoning district, and any adjacent residential use, regardless of the underlying zoning district thereof. Such buffer area shall, at minimum, consist of dense foliage and vegetation, of at least partially evergreen species, not less than 6 feet in height. Landscaping shall be continuously maintained and promptly reconditioned, if necessary. Other landscaping may be required by the Zoning Inspector and the Board of Zoning Appeals. The arrangement of landscaping and the overall design thereof within a lot on which a wireless telecommunications monopole and related facility is placed may be considered by the Zoning Inspector and the Board of Zoning Appeals.
2. Fencing:
 - a. Fencing necessary for safety or security shall be developed in conjunction with the landscaping and screening and shall be constructed to be unobtrusive in color and design.
 - b. Type: In any permissible residential zoning district, the screened fencing shall consist of a chain link fence as commonly understood and approved by the Board of Zoning Appeals.
 - c. Color: Fencing may be unpainted or painted to blend into the surrounding area.
 - d. Locked: Access to the monopole and related wireless telecommunications facility shall only be through a locked gate, properly maintained and secured 24 hours per day. Trumbull Township shall not be responsible for any damage to the monopole or other auxiliary structures, and shall be held harmless from any liability of any kind relating to damage, destruction, misfeasance of the tower or auxiliary structures, and from any personal injury to any party whomever, for as long a time as the monopole and related wireless telecommunication facilities shall exist on the site.

3. Illumination: Except as required by law, an antenna or monopole shall not be illuminated, and lighting fixtures or signs, other than those sanctioned by this article, shall not be attached to an antenna or monopole. Security lighting shall be permitted for the wireless telecommunications equipment building and other auxiliary structures, if any. Any permitted lighting shall be situated and directed so as not to emit light directly or indirectly onto any adjoining residential property, and in any zoning district, such lighting shall be designed, placed, and directed to minimize its emission and glare onto any adjoining property.
4. Signs and Symbols: A monopole or related wireless telecommunications facility shall contain no symbols. The fencing surrounding the wireless telecommunications equipment building shall contain an appropriate number of signs to warn the public of danger and also at least 2 signs stating "NO TRESPASSING", and a sign identifying the wireless telecommunications service provider, of a type, size, color and allotment as approved by Zoning Inspector or the Board of Zoning Appeals.

1505 REGISTRATION OF WIRELESS TELECOMMUNICATIONS PROVIDERS

All wireless telecommunications services providers, including governmental, public, and quasi-public providers, who operate or propose to operate within Trumbull Township, shall register with the Zoning Inspector and the Board of Zoning Appeals on forms and in a manner as prescribed by the Zoning Inspector. At minimum, the following information shall be required.

1. The identity and legal status of the provider, including business affiliations.
2. The name, address, phone number, fax number, and electronic mail address (if available), of the officer, agent, or employee responsible for the accuracy of the registration statement. It shall be the responsibility of the provider to keep this information up-to-date.
3. A narrative and map description of all the provider's existing or proposed wireless telecommunications monopoles and related facilities in Trumbull Township and elsewhere.
4. A description of the wireless telecommunications services the provider intends to provide, or is currently offering anywhere.
5. Written information sufficient in the opinion of the Zoning Inspector or the Board of Zoning Appeals to verify that the provider has applied for and received certification and approval as a licensed wireless telecommunications provider by the FCC to operate in the State of Ohio.
6. Any other information reasonably related to the application and the probable, substantive effects of locating a wireless telecommunications monopole and related facility in non-residential district in Trumbull Township.

1506 DESIGN CRITERIA

1. Camouflaging of Monopoles:
 - a. Monopoles shall be located in a landscaped setting. The Zoning Inspector or the Board of Zoning Appeals may require additional landscaping. Camouflaging of monopoles is especially encouraged. Such camouflaging may take the form of erecting a monopole which resembles or mimics another object, such as a tree or flag pole. Camouflaging may also consist of placing antennas on existing

structures such as water monopoles or buildings in such a way that they are not easily detected and cannot be seen by the naked eye from a long distance.

- b. If antennas are collocated on existing structures which are not monopoles as defined by this article, it shall be presumed that such antennas are camouflaged unless their positioning and placement causes them to be easily seen and discerned by a reasonable person as being wireless telecommunications antennas.
 - c. A building or other structure may be a prop only, that is, unused and unusable as anything but a device to camouflage an antenna(s). It shall be aesthetically pleasing and maintained continuously.
 - d. Camouflaging, whatever variety and however employed, shall be of a type compatible with the immediate surrounding area. For example, an artificial oak tree, 100 feet in height would satisfy this requirement; and an artificial palm tree would not.
 - e. Antennas may be placed on facades of buildings if colored and designed to match the color, texture, and style of the building to which it is attached, and shall be attached at least 25 feet above grade.
2. Color of monopoles: All monopoles of any type shall be of a color which blends into the natural color of the immediate area or skyline, but shall not be painted at all, if by coloring the monopole, it would be more visible to the naked eye from a long distance than if it were erected in the ordinary tone of its construction materials, such as the grayish color of galvanized steel.
 3. Monopoles of Excessive Height: Wireless Telecommunications monopoles in residential Zoning Districts higher than 200 feet or located within 2,500 feet of any airport runway, public or private, shall be registered with the FAA. The provider/operator of such monopole shall submit written verification of such registration with the FAA. Lighting shall be required for that part of monopoles in excess of 200 feet, or as otherwise required by the FAA. When such lighting is required by the FAA or other governmental authority, and the zoning lot on which a monopole is located abuts any residential zoning district, it shall be oriented inward of the zoning lot and shall not project, or be cast onto all abutting zoning lots within residential zoning districts.
 4. National Environmental Protection Act: The location, construction, and operation of t monopoles and related wireless telecommunications facilities shall comply with all applicable requirements and laws of the National Environmental Protection Act Chapter 19, as may from time to time be amended.
 5. Advertising and Identification:
 - a. Identification of monopoles and related wireless telecommunications facilities shall be permitted if required by the FCC, FAA, Federal or State EPA, OSHA, or other governmental agency for regulation or identification purposes as necessary pursuant to the Telecommunications Act of 1996 as may from time to time be amended, or other applicable law. Trumbull Township shall be permitted to require identification signs for monopoles and related wireless telecommunications facilities in any residential district..
 - b. No advertising shall be permitted on monopoles or related wireless telecommunications facilities, unless required as indicated in (a) above, or by

other action of law. The only signs permitted shall be those signs indicating danger and no trespassing signs, or other signs important to the identification of the monopole or facility as determined by the Zoning Inspector or the Board of Zoning Appeals. All such signs shall be permanently attached to the monopole or other wireless telecommunications structure and shall be placed at least 4 feet above grade. The only colors permitted shall be black, white, red, yellow, orange, or any combination of these colors. Signs shall not be illuminated in any manner.

1507 ROADS AND PARKING

1. All lots on which are located monopoles and related wireless telecommunications facilities shall abut a public right-of-way. If the road surface of such right-of-way is unimproved or otherwise impassible, it shall be the responsibility of the wireless telecommunications provider to construct the roadway, at his or her expense, according to the road construction requirements of the Ashtabula County Engineer. The zoning permit to erect a wireless telecommunications monopole and related facility shall not be granted for a monopole or related wireless telecommunications facility in any residential zoning district until the road is constructed as herein specified.
2. Existing or new roads shall be used for access.
3. If available, existing parking shall be used and not expanded. Each zoning lot containing a monopole and related wireless telecommunications facility shall have sufficient parking to accommodate service of the site. A minimum of one parking space and a maximum of three parking spaces shall be provided.
4. If the wireless telecommunications facility is fully automated, a maximum of two parking spaces shall be required for maintenance workers. If the site is not fully automated, a maximum of three parking spaces shall be permitted.

1508 ACCESSORY BUILDINGS

All accessory or utility buildings and structures not a monopole or related wireless telecommunications facility as defined per this article, shall be architecturally designed to blend in with the surrounding area and shall meet the minimum setback requirements of the underlying zoning district. Landscaping and other regulations of this article shall also apply. Ground mounted equipment shall be screened from view by suitable vegetation, except where a design of non-vegetative screening better reflects and complements the surrounding neighborhood.

1509 DEMONSTRATION OF NECESSITY

1. To assure that the Township's and public's objectives are achieved, the wireless telecommunications service provider requesting a zoning permit to locate a monopole and related wireless telecommunications facility in any residential zoning district, shall produce written evidence of contact with all wireless telecommunications services providers who supply service within the distribution sphere of the proposed facility. The applicant-provider shall inquire about potential collocation opportunities at all technically feasible locations in, or which could service Trumbull Township.
2. To evaluate the need for a monopole, antenna, and related wireless telecommunications facility at a particular location, the Township may contract with a competent expert to assist in making such a determination. If requested by the Township, the applicant-provider shall deposit with the Township the estimated reasonable fee for such professional consultation. Such deposit shall be made prior to

the application being considered by the Township. Any unused amounts on deposit shall be refunded to the applicant-provider.

1510 EXPANSION OF A NONCONFORMING USE

A wireless telecommunication monopole or related facility, either collocation, new monopole, or on an existing structure, shall not be considered an expansion of a nonconforming use pursuant to the Trumbull Township Zoning Resolution.

1511 NON-IONIZING ELECTROMAGNETIC RADIATION (NIER) EXPOSURE

No wireless monopole or related wireless telecommunications facility shall be located in such a manner that it poses, either by itself, or in combination with other such facilities, a potential threat to public health, including but not limited to, human or animal exposure to non-ionizing electromagnetic radiation. A wireless telecommunications facility shall not produce at any time power densities which exceed the American National Standards Institute (ANSI) C95.1-1992 standard for human exposure, or any more reasonably restrictive standard subsequently adopted or promulgated by Trumbull Township, Ashtabula County, State of Ohio, or the United States of America.

1512 ABANDONMENT

Any antenna, monopolo, or related wireless telecommunications facility which is not operated for its intended purpose for a period of 2 years shall be considered abandoned, and the monopole and antenna(s) shall be removed at the expense of the wireless telecommunications provider or the current property owner within 120 days of the issuance date of notice by the Zoning Inspector to remove such monopole and antenna(s).

1513 SUPPLEMENTAL PROVISIONS

1. Trumbull Township may require that any monopole be constructed to facilitate future collocation whenever technically feasible, as regulated per this article.
2. Trumbull Township may lease or rent space on monopoles to other public or private wireless telecommunications providers for the purpose of placing antennas to provide separate wireless telecommunications services. Fees obtained through collocation when the Township is the owner of a monopole or related wireless telecommunications facility, even amounts in excess of cost, shall be permissible, if reasonably related to the maintenance of wireless telecommunications monopoles and facilities and mitigation of any adverse impacts thereof.
3. Trumbull Township may prepare and use public land for wireless telecommunications monopoles and related facilities for the purpose of providing for modern, effective wireless telecommunications services for the public and regulating their location to promote the general welfare.
4. Trumbull Township and all competing wireless telecommunications service providers shall show good faith in their dealings with one another and diligently negotiate with each other in all matters concerning locating and sharing wireless telecommunications monopoles and related facilities, by providing written documentation as to the said contact and/or communication by and between the above mentioned

1514 APPROVAL PROCEDURE, RESIDENTIAL DISTRICTS

1. Application for approval to locate monopoles, antennas, and related wireless telecommunications facilities in any and all residential zoning districts shall be controlled as set forth under ORC 519.211 and by Trumbull Township Zoning Regulations, and the applicant/provider shall apply for a Zoning Permit as a conditional use through the Board of Zoning Appeals.
2. In addition to the requirements for a Zoning Permit, the following shall be submitted in an application for approval.
 - a. A written document certifying that the applicant is a wireless telecommunications service provider licensed by the FCC.
 - b. An affidavit swearing that the applicant shall comply with all regulations of The Telecommunications Act of 1996, as may from time to time be amended.
 - c. A written document which certifies that the applicant shall locate no monopoles in violation of laws governed by the FAA.
 - d. A report from a certified, structural engineer which:
 - i. Describes the monopole height and design including a Cross-section and elevation;
 - ii. Documents the total monopole height and its potential for mounting positions for collocated antennas, their minimum separation distances, and general ability for accommodating collocation;
 - iii. Documents what steps the applicant will take to avoid interference with established public safety telecommunications;
 - iv. Certifies that the monopole is structurally sound and if it should fail, under what conditions it might fail, and the likely result thereof; and,
 - v. Includes the structural engineer's stamp and registration number or signature if other qualified professional.
3. For all private, commercial wireless telecommunications service providers, a letter of intent committing the provider or monopole owner and his or her successors and assignees, to permit collocation if technically feasible, and if another provider agrees in writing to meet reasonable terms and conditions of collocation, may be required by the Zoning Inspector or the Board of Zoning Appeals.
4. A report from a certified electrical engineer, or other professional having the expertise to attest to the electrical and radio frequency safety of an antenna receiving or transmitting radio waves associated with wireless telecommunications. Such report shall include a statement regarding levels on non-ionizing electromagnetic radiation (NIER) by an individual qualified to make such statement. The qualifications of such individual shall be submitted in writing with the report.

1515 WIRELESS TELECOMMUNICATIONS GLOSSARY

Nomenclature unique to or commonly associated with the wireless telecommunications industry shall be understood to refer to that industry and to what this article regulates, and is made part of the definitions as contained herein, as may from time to time change.

1516 APPLICATION FEE

The Township may charge a fee in addition to the usual fee required for processing an application for a zoning permit, to locate a monopole, antenna, or related wireless telecommunications facility in any residential zoning district in Trumbull Township.

1517 LEASING BY TRUMBULL TOWNSHIP

Trumbull Township may lease or rent at prevailing market rates, the use of existing or new monopoles and related wireless telecommunications facilities to private or public service providers for collocation of antennas. A private or public service provider, or Trumbull Township, may be the sole user of a monopole, antenna, or related wireless telecommunications facility. Trumbull Township may itself lease or rent, or construct, place, modify, and/or maintain monopoles and related wireless telecommunications facilities on public or private property for exclusive or shared operations with other private or public service providers, and may charge any reasonable leases, fees, or permits in a manner as would a private wireless telecommunications service provider under similar business circumstances.

1518 VIOLATIONS

Whoever intentionally violates this article shall be guilty of a misdemeanor.
