Nothing in this Article shall be construed to require the actual location of any district on the Official Zoning Map, as it is the intent of this Resolution to provide the flexibility in its administration to allow future expansion and emendation.

5.3: **Zoning District Map:** The districts established in Article 5.2, as shown on the Official Zoning Map, which, together with all data, references, explanatory material and notations thereon, are hereby officially adopted as part of this Resolution and hereby incorporated by reference herein, thereby having the same force and effect as if herein fully described in writing.

5.4: Zoning Map Legend: There shall be provided on the Official Zoning Map a legend which shall list the name of each zoning district and indicate the symbol for that district. A color, combination of colors, or black and white patterns may be used in place of symbols to identify the respective zoning districts in such legend. In addition to such legend, the Official Zoning Map shall provide sufficient space for compliance with Article 5.7.

5.5: Identification of Official Zoning Map: The Official Zoning Map shall be properly identified by the signature of the Chairman of the Board of Township Trustees, as attested by the Township Clerk, and bearing the official seal. The Map shall be maintained by the Zoning Inspector, and shall remain on file in the office of the Clerk. The Official Zoning Map shall control whenever there is an apparent conflict between the district boundaries as shown on the Map and the description(s) as found in the text of the Resolution or any other Resolution. The Official Zoning Map shall be a reproducible document, and copies shall be made available to the public upon request and upon payment of a fee as established by Resolution. Not later than January 30 of each year, the Map shall be recertified by the Chairman and the Clerk.

5.6: Interpretation of District Boundaries: The following rules shall be used to determine the precise location of any zoning district boundary unless such boundary is specifically indicated on the Official Zoning Map:

- A. Where district boundaries are so indicated as approximately following the center lines of thoroughfares or highways, street lines, or highway right-of-way lines, such center lines, street lines, or highway right-of-way lines shall be construed to be said boundaries;
- B. Where district boundaries are so indicated that they approximately follow the lot lines, such lot lines shall be construed to be said boundaries;
- C. Where district boundaries are so indicated that they are approximately parallel to the center lines or street lines of streets, or the center lines or right-of-way lines of highways, such district boundaries shall be construed as being parallel thereto and at such distance therefrom as indicated on the Official Zoning Map. If no distance is given, such dimensions shall be determined by the use of the scale shown on the

Official Zoning Map;

- D. Where the boundary of a district follows a stream, lake, or other body of water, said boundary line shall be deemed to be at the limit of the jurisdiction of the Township unless otherwise indicated;
- E. Whenever any street, alley, or other public way is vacated by official Board of Township Trustees action, the zoning district adjoining each side of such street, alley, or public way shall automatically be extended to the center of such vacation, and all areas within that vacation shall thenceforth be subject to all regulations appropriate to the respective extended districts.

All questions and disputes concerning the exact location of zoning district boundaries shall be resolved by the Board of Zoning Appeals.

5.7: Zoning Map Amendments: Within fifteen (15) days of the effective date of any change of a zoning district classification or boundary, the Zoning Inspector shall amend the Official Zoning Map to reflect such change, and shall note the effective date of such change, together with appropriate reference to the Resolution authorizing such change. The Official Zoning Map shall then be signed by the Chairman and attested by the Clerk.

C. Zoning Permit Required: No person, firm or corporation shall undertake the construction, erection or installation of any satellite dish over three feet (3') in diameter without a zoning permit issued in accordance with the provisions of this Resolution. In addition to the requirements of Article 17 of this Resolution, the application for such permit shall include the following:

1. A description of the type of earth station proposed;
2. A plot plan of the lot, premises, or parcel of land showing the location of the proposed earth station and all other buildings thereon;
3. Plans depicting the specifications and elevations of the proposed location, to include satisfactory screening and landscaping for ground-mounted structures;
4. Details of the method of assembly and construction of the proposed earth station;
5. A fee as required according to Article 16 for the review of plans and specifications and the inspection of construction.

D. Ground-Mounted Satellite Dish Antennas: Ground-mounted satellite dish antennas are considered as accessory structures, and are permitted as accessory uses in all districts. In addition to the provisions of this Resolution pertaining to accessory structures, the following provisions shall apply to ground-mounted satellite dishes.

1. The maximum diameter of any ground-mounted satellite dish shall not exceed fifteen (15) feet;
2. The maximum height of any ground-mounted satellite dish shall not exceed eighteen (18) feet above the finished grade;
3. The apparatus shall conform to required setbacks;
4. All wiring and grounding apparatus shall be in accordance with the National Electrical Code;
5. The apparatus shall be mounted upon a solid concrete slab;

- E. Roof-Mounted Satellite Dish Antennas: Roof-mounted satellite dish antennas are considered as accessory structures, and are permitted as accessory uses in all districts. In addition to the provisions of this Resolution pertaining to accessory structures, the following provisions shall apply to roof-mounted dishes:
1. The maximum diameter of any roof-mounted satellite dish shall not exceed three (3) feet;
 2. The height of any roof-mounted satellite dish shall not exceed the roof height of the building upon which it is mounted by more than four (4) feet;
 3. All wiring and grounding of the apparatus shall be in accordance with the National Electrical Code;
 4. The apparatus, its mounting and all supporting devices shall be constructed and erected in accordance with the National Building Code directly upon the roof of the principal building, and shall not be mounted upon a spire, tower, turret, chimney, pole, or any appurtenances thereto attached;
- F. Variations on Locational Characteristics: An applicant may request a variance from the accessory building requirements and the required height restrictions in compliance with the procedures of Article 13 of this Resolution. In addition to all requirements of these sections, the applicant shall submit clear and convincing evidence that the requested variance is necessary in order for the satellite dish antenna to have a direct line of sight or unobstructed view to the satellite. In any case where this provision applies, the variance granted by the Board of Zoning Appeals shall be the minimum variance required to achieve the necessary direct line of sight to assure that the antenna can properly function.

11.20: Communications Towers

A. Purpose

The purpose of this Resolution is to establish general guidelines for the siting of antennas. The goals of this Resolution are to 1) encourage the location of towers in non-residential areas and minimize the total number of towers throughout the community, 2) encourage strongly the joint use of new and existing tower sites, 3) encourage users of towers and antennas to locate them,

to the extent possible, in areas where the adverse impact on the community is minimal, 4) encourage users of towers and antennas to configure them in a way that minimizes the adverse visual impact of the towers and antennas, and 5) enhance the ability of the providers of telecommunications services to provide such services to the community quickly, effectively, and efficiently.

B. Authorization and Federal Requirements

Such structures shall comply with applicable FAA and FCC regulations. Evidence of compliance must be submitted prior to issuance of a permit for tower construction. All towers must meet or exceed current standards and regulations of the FAA, the FCC, and any other agency of the federal government with the authority to regulate towers and antennas. If such standards and regulations are changed, then the owners of the towers and antennas governed by this Resolution shall bring such towers and antennas into compliance with such revised standards and regulations within six (6) months of the effective date of such standards and regulations, unless a more stringent compliance schedule is mandated by the controlling federal agency. Failure to bring towers and antennas into compliance with such revised standards and regulations shall constitute grounds for the removal of the tower or antenna at the owner's expense. Any such removal by the Township Trustees shall be in the manner provided for in the Ohio Revised Code.

C. Certification

All certifications required under this section shall be by an Ohio registered engineer.

D. Conditional Use

Radio, television, or microwave towers and similar commercial structures shall be conditional uses within all zoning districts.

E. Design

New communication towers in excess of one hundred fifty (150) feet, excluding monopoles, shall be designed structurally to accommodate the maximum amount of additional antenna reasonably practicable to promote shared use of

towers.

F. Placement and Height

1. Unless the Federal Communications Commission promulgates rules to the contrary, all personal wireless service facilities shall be a distance of not less than 350 feet from the nearest property line of a school, day-care center, camp, or playground and, if installed in a cemetery, shall be at least 500 feet from the nearest property line.
2. Setback shall be equal to the height of the tower unless an engineer certifies the fall zone will be within the setback area proposed. For guyed towers, applicants should submit certified break-apart area calculations in order for the property boundary setbacks of the tower to be determined. Alternatively, if the applicant chooses not to submit break-apart calculations, the minimum setbacks shall be one hundred ten (110) percent of the height of the tower, as measured from all property lines.

G. Safety Standards

1. To ensure the structural integrity of towers, the owner of a tower shall ensure that it is maintained in compliance with standards contained in applicable local codes and the applicable standards for towers that are published by the Electronic Industries Association, as amended from time to time. If, upon inspection, the Township Trustees concludes that a tower fails to comply with such codes and standards and constitutes a danger to persons or property, then upon notice being provided to the owner of the tower, the owner shall have thirty (30) days to bring such tower into compliance with such standards. If the owner fails to bring such tower into compliance within said thirty (30) days, the Township Trustees may remove such tower at the owner's expense. Any such removal by the Township Trustees shall be in the manner provided for in the Ohio Revised Code.
2. No tower shall be situated on the properties so that if the tower falls, it would strike or cause damage to any power line, or so that any part of the tower exceeds beyond the parameters of the property after the tower has fallen.

H. Lighting

Towers shall not be artificially lighted, unless required by the FAA or other applicable authority. If lighting is required, the Township Trustees may review the available lighting alternatives and approve the design that would cause the least disturbance to the surrounding views.

I. Fencing

A chainlink fence no less than six (6) feet in height from finished grade shall be constructed around each communication tower and around related support or guy anchors. Access shall only be through a locked gate.

J. Warning Signs

All warning signs shall use at least six-inch lettering and be installed five (5) feet above finished grade of the fence. "NO TRESPASSING" warning signs shall be attached to the fence and shall be spaced no more than forty (40) feet apart. If high voltage (above 220 volts) is necessary for the operation of the tower and is present at the base of the tower, signs located no more than forty (40) feet apart and attached to the fence or wall shall indicate "DANGER-HIGH VOLTAGE". In the event that warning signs intended to be attached to a fence should be obstructed by landscaping, then the applicant shall attach warning signs to free-standing poles that are situated around the site so as to be clearly visible and not obstructed by any landscaping.

K. Maintenance of Facilities

The applicant shall submit a certified inspection report at least once every five (5) years to ensure the continuing structural integrity of the tower and accessory structures. If the report recommends that repairs or maintenance are required, then a letter shall be submitted to the Township to verify that such repairs and/or maintenance have been completed. The Township Trustees may require repair or removal of the tower based on the inspection report. The Township shall have no responsibility regarding such repairs and/or maintenance. Existing, nonconforming towers shall be subject to current approval requirements if

replacement is required.

L. Shared Use

To discourage the proliferation of communication towers, shared use of tower structures is both permitted, as a conditional use, and encouraged. Placement of more than one tower on a land site may be permitted if all setbacks, design and landscape requirements are met for each tower. New tower applications shall not be accepted unless the applicant makes a good faith effort to substantially demonstrate that no existing or planned tower can accommodate the applicants's antenna or transmitter.

M. Dedication of Tower Use

For towers over one hundred (100) feet in height, the Township Trustees may require, as a condition of approval, the dedication of space on the tower for communications equipment as required for public safety. Specific requests for such public use shall be discussed with the applicant prior to formal approval.

N. Landscape Buffers

Landscape buffers shall be required around the perimeter fencing of the tower and any accessory uses, including guy anchors, except that the standard shall be waived when the proposed landscaping would not be visible from adjacent lots or right-of-way. Landscape buffers, located outside and within ten (10) feet of the fence, shall include one tree for every twenty (20) linear feet of fence and suitable ground cover.

O. Access

A twelve-foot-wide stabilized access driveway is acceptable, unless it is determined, based on public safety concerns, that circumstances require paved access. The turnaround area must be found to be acceptable for public safety usage.

P. Parking

For new towers exceeding one hundred fifty (150) feet in height, a minimum of one on-site parking space shall be provided. The parking area shall be paved if the access road is paved. After evaluation of the proposed tower and related

facilities, it may be determined that additional spaces are required as a condition of approval.

Q. Occupancy

Communication towers and accessory structures shall be unoccupied.

R. Signs and Advertising.

The use of any portion of a tower for signs or advertising purposes is prohibited.

S. Submittal Requirements

A development plan/application shall include:

1. Written authorization from the property owner of the proposed tower site.
2. A site plan: drawn to scale, showing the property boundaries, showing any tower guy wire anchors and other apparatus, existing and proposed structures, scaled elevation view, access road(s) location and surface material, parking area, fences, location and content of (any or warning) signs, exterior lighting specifications, landscaping plan, land elevation contours, existing land uses surrounding the site, proposed transmission buildings and/or other accessory uses with details including elevations and proposed use.
3. A written report including: information describing the tower height and design; a cross-section of the structure; engineering specifications detailing construction of tower, base, and guy wire anchorage; information describing the proposed painting and lighting schemes; information describing the tower's capacity, including the number and type of antennas that it can accommodate; radio frequency coverage (not to be made a part of the public record; all tower structural information to be certified by a licensed public engineer; wireless telecommunications data to be certified by an appropriate wireless telecommunications professional; information discussing unavailability of other sites for one or more of the following reasons - refusal by current tower owner, topographic limitations, adjacent impediments blocking transmission, site limitations to tower construction, technical limitations of the system, equipment exceeds structural capacity of facility or tower, no space

on existing facility or tower, other limiting factors rendering existing facilities or towers unusable, an update of capacity on an existing tower.

T. Fire Protection

Tower support buildings shall be built of noncombustible construction with built-in ventilation. A smoke detector shall be installed which upon activation will shunt the electrical power to the building. No combustible storage is permitted in tower support buildings.

U. Tower Removal

Any tower that is no longer in use for its original communications purpose shall be removed at the owner's expense. The owner shall provide the Township with a copy of the notice to the FCC of intent to cease operations and shall be given ninety (90) days from the date of ceasing operations to remove the obsolete tower and accessory structures. In the case of multiple operators sharing use of single tower, this provision shall not become effective until all users cease operations. The equipment on the ground is not to be removed, however, until the tower structure has first been dismantled and removed. If such antenna or tower is not removed within said ninety (90) days, the Township Trustees may, in the manner provided in the Ohio Revised Code, remove such antenna or tower at the owner's expense. The Township may employ all legal measures, including, if necessary, obtaining authorization from a court of competent jurisdiction, to remove the tower, and after removal may place a lien on the subject property for all direct and indirect costs incurred in dismantling and disposal of the tower, including court costs and reasonable attorney fees.

V. Tower Replacement

Existing towers, that may be determined to be nonconforming structures as a result of the application of the distancing requirements or the setback requirements of this Resolution, may be replaced one time by a tower of equal or lesser height, if the replacement is completed within five (5) years of the effective date of this Resolution.

11.21 Drainage and Water Removal

The Township is not responsible for your water removal. Sewage water and downspouts or surface water should be drained through your own established outlet. A road tile is not to be used for this purpose and will not be tolerated.

In any District and in connection with any use or structure, the owner, lessee, or user shall provide appropriate drainage. Insofar as possible, all surface waters and drainage shall be disposed of on the owner's, lessee's or user's own property, and if not, such waters shall be disposed of so as not to adversely effect the neighboring or adjacent property.

This provision shall not apply to the installation of agricultural field drainage tile.

If the property of others must be crossed in order to comply with this provision, the owner, lessee, or user shall be responsible for all damage caused thereby and for securing any permission from the owners, and shall not connect to, or interfere with, existing drainage systems on the property of others, unless it is with their approval.

11.22 Sewer and Water in Non-Public-Sewered Areas

The Van Wert County Health Department has sole responsibility for household sewage and water systems for non-public-sewered areas of Van Wert County.

At this time the following is required: Any lot on which an individual would like to build a single family dwelling must be at least one (1) acre in size with one hundred and fifty feet (150') of road frontage. The lot must be well drained, and have no ponds. Residential uses with a pond require one and a half (1 ½) acres.

Pertinent data such as soil suitability, acreage, and distancing requirements shall be considered. The Health Department has the final jurisdiction in determining whether or not a lot is permitted to have a sewage system located on it.

11.23 Sign-off Form

The purpose of this form is to help residential land owners in achieving a variance from

their adjoining property owners without going through a hearing with the Zoning Board of Appeals. This is in keeping the cost down for the residential land owners. If for some reason a resident cannot achieve a completed sign-off form from their adjoining land owners, then they can still apply for a variance through the Zoning Board of Appeals. All requirements are to be met in filling out the sign-off form, which consists of following the same procedures that are required for a variance.

The sign-off form is obtained from the Zoning Inspector, and must be returned to the Zoning Inspector after it is properly completed.

This sign-off form in no way relieves the applicant from needing a zoning certificate for construction.

11.24 Lot Splits

Lot splits of six (6) or more lots from an original parcel are major subdivisions. Major subdivision regulations are to be obtained from the Van Wert County Regional Planning Commission.

Lot splits of five (5) or fewer lots from an original parcel are minor subdivisions. The Van Wert County Application for Approval of Minor Subdivision form must be completed. There is to be attached, a description of the land in question and a survey plan by a certified surveyor.

No lot split application shall be approved until flood hazard area information has been obtained from the Van Wert County Regional Planning Commission. If the lot is intended to be utilized for new construction, the pre-approval of the County Sanitarian must be given prior to submittal to the Zoning Inspector for review and approval. If lot is within a flood hazard area, County Flood Plain Management policies shall apply and can be obtained from the Van Wert County Regional Planning Commission.

Any lot split, of one (1) acre or more set aside from agricultural usage for the purpose of

residential usage, per real estate tax duplicate filed with the County Auditor tax office, shall be designated as residential (R) on the Official Zoning Map.

11.25 Zoning Permits

No zoning permit for new construction shall be approved until flood hazard area information has been obtained from the Van Wert County Regional Planning. If the lot is within a flood hazard area, County Flood Plain Management policies shall apply and can be obtained from the Van Wert County Regional Planning Commission. If the lot is intended to be utilized for residential construction, the approval for well and septic must be given by the appropriate official, County Sanitarian or EPA. The County Engineer shall also review and approve road cuts and drainage prior to submittal to Zoning Inspector for review and approval.

ARTICLE 12 - EXCEPTIONS TO REGULATIONS

12.1: The regulations specified in this Resolution shall be subject to the following exceptions and regulations.

- A. Use of Existing Lots of Record: Nothing in the area requirements of this Resolution relating to lot area for residential use shall be held to prohibit the erection of a one-family dwelling upon a lot, the area of frontage of which is less than that prescribed herein, provided such lot or plat was of official record as of the effective date of this Resolution, subject to the following requirements.
1. The front yard shall be as established in this Resolution.
 2. In case the frontage of the lot of record is fifty (50) feet or less, the side yards shall be at least three (3) feet.
 3. In case the frontage of the lot of record is more than fifty (50) feet the side yards shall be as established in this Resolution.

ARTICLE 13 - PROCEDURES AND REQUIREMENTS FOR APPEALS AND
VARIANCES

13.1: General: Appeals and variance shall conform to the procedures and requirements of Sections 13.2 to 13.12 inclusive, of this Resolution. As specified in Article 16, the Board of Zoning Appeals has appellate jurisdiction relative to appeals and variances.

13.2: Appeals: Appeals to the Board of Zoning Appeals concerning interpretation or administration of this Resolution may be taken by any person aggrieved or by any officer or bureau of the Township Trustees of the Township affected by any decision of the Zoning Inspector. Such appeal shall be taken within twenty (20) days after the decision by filing, with the Zoning Inspector and with the Board of Zoning Appeals, a notice of appeal specifying the grounds upon which the appeal is being taken. The Zoning Inspector shall transmit to the Board of Zoning Appeals all the papers constituting the record upon which the action appealed from was taken.

13.3: Stay of Proceedings Under Appeals: An appeal stays all proceedings in furtherance of the action appealed from, unless the Zoning Inspector from whom the appeal is taken certifies to the Board of Zoning Appeals after the notice of appeal is filed with him, that by reason of facts stated in the application, a stay would, in his opinion, cause imminent peril to life and property. In such case, proceedings shall not be stayed other than by a restraining order which may be granted by the Board of Zoning Appeals or by a court of record on application, on notice to the Zoning Inspector from whom the appeal is taken on due cause shown.

13.4: Variances: The Board of Zoning Appeals may authorize upon appeal in specific cases such variance from the terms of this Resolution as will not be contrary to the public interest where, owing to special conditions, a literal enforcement of the provisions of this Resolution would result in unnecessary hardship. No nonconforming use of neighboring lands, structures, or buildings in the same district and no permitted or nonconforming use of lands, structures or buildings in other districts shall be considered grounds for issuance of a variance. Variances shall not be granted on the grounds of

convenience or profit, but only where strict application of the provisions of this Resolution would result in unnecessary hardship.

13.5: Application and Standards for Variances: Except as otherwise permitted in this Resolution, no variance in the strict application of the provisions of this Resolution shall be granted by the Board of Zoning Appeals unless the Board shall find that the written application for the requested variance contains all of the following requirements:

- A. Name, address, and phone number of applicant(s);
- B. Legal description of property;
- C. A list containing the names and mailing addresses of all owners of adjoining property.
- D. Description or nature of variance requested;
- E. A fee as established by Resolution;
- F. Narrative statements establishing and substantiating that variance conforms to the following standards:
 - 1. The granting of the variance shall be in accord with the general purpose and intent of the regulations imposed by this Resolution on the district in which it is located, and shall not be injurious to the area or otherwise detrimental to the public welfare.
 - 2. The granting of the variance will not permit the establishment of any use which is not otherwise permitted in the district.
 - 3. There must exist special circumstances of conditions, fully described in the findings, applicable to the land or buildings for which the variance is sought, which are peculiar to such land or buildings and do not apply generally to land or buildings in the area, and which are such that the strict application of the provisions of this Resolution would deprive the applicant of the reasonable use of such land or building. Mere loss in value shall not justify a variance; there must be deprivation of beneficial use of land.
 - 4. There must be proof of hardship created by the strict application of this Resolution. It is not sufficient proof of hardship to show that greater profit would result if the variance were granted. Furthermore, the hardship complained of

cannot be self-created; nor can it be established on the basis by one who purchases with or without knowledge of the restrictions; it must result from the application of this Resolution; it must be suffered directly by the property in question; and evidence of variances granted under similar circumstances need not be considered.

5. The granting of the variance is necessary for the reasonable use of the land or building, and the variance as granted is the minimum variance that will accomplish this purpose.
6. The proposed variance will not impair an adequate supply of light and air to adjacent property, substantially increase the congestion in the public roads, increase the danger of fire, endanger the public safety, or substantially diminish or impair property values of the adjacent area.
7. The granting of the variance requested will not confer on the applicant any special privilege that is denied by this regulation to other lands, structures, or buildings in the same district.

13.6: Additional Conditions and Safeguards: The Board may further prescribe any conditions and safeguards that it deems necessary to insure that the objectives of the regulations or provisions to which the variance applies will be met. Any violation of such conditions and safeguards, when they have been made a part of the terms under which the variance has been granted, shall be deemed a punishable violation under this Resolution.

13.7: Public Hearing by the Board of Zoning Appeals: The Board of Zoning Appeals shall hold a public hearing within thirty (30) days after the receipt of an application for an appeal or variance from the Zoning Inspector or an applicant.

13.8: Notice of Public Hearing in Newspaper: Before conducting the public hearing required in Section 13.7, notice of such hearing shall be given in one or more newspapers of general circulation in the Township at least fifteen (15) days before the date of said hearing. The notice shall set forth the time and place of the public hearing, and the nature of the proposed appeal or variance.

13.9: Notice to Parties of Interest: Before conducting the public hearing required

in Section 13.7, written notice of such hearing shall be mailed by the Chairman of the Board of Zoning Appeals, by first class mail, at least ten (10) days before the day of the hearing to all parties of interest, to include all property owners listed in the application. The notice shall contain the same information as required of notices published in newspapers as specified in Section 13.8.

13.10: Action by Board of Zoning Appeals: Within thirty (30) days after the public hearing required in Section 13.7, the Board of Zoning Appeals shall either approve, approve with supplementary conditions as specified in Section 13.6, or disapprove the request for appeal or variance. The Board of Zoning Appeals shall further make a finding in writing that the reasons set forth in the application justify the granting of the variance that will make possible a reasonable use of the land, building or structure. Appeals from Board decision shall be made in the manner specified in Section 16.9.

13.11: Term of Variance: No order of the Zoning Board of Appeals granting a variance shall be valid for a period longer than twelve (12) months from the date of such order unless the building permit or zoning approval is obtained within such period, and the erection or alteration of a building is started or the use is commenced within such period.

13.12: Authorized Variances: Variances from the regulations of this Resolution shall not be granted unless the Board makes specific findings of fact, based directly on the particular evidence presented to it, which support conclusions that the standards and conditions imposed in Section 13.5, and Section 13.6 if applicable, have been met by the applicant. Variances may be granted as guided by the following:

- A. To permit any yard or setback less than the yard or setback required by the applicable regulations.
- B. To permit the use of a lot or lots for use otherwise prohibited solely because of the insufficient area or width of the lot or lots, but generally the respective area and width of the lot or lots should not be less than eighty (80) percent of the required area and width.
- C. To permit the same off-street parking facility to qualify as required facilities for two or more uses, provided that substantial use of such facility by each user does not take place at approximately the same hours of the same days of the week.

- D. To reduce the applicable off-street parking or loading facilities required, but generally by not more than thirty (30) percent of the required facilities.
- E. To allow for the deferment of required parking facilities for a reasonable period of time, such period of time to be specified in the variance.
- F. To increase the maximum distance that required parking spaces are permitted to be located from the use served, but generally not more than forty (40) percent.
- G. To increase the maximum allowable size or area of signs on a lot, but generally by not more than twenty-five (25) percent.
- H. To increase the maximum gross floor area of any use so limited by the applicable regulations, but generally not more than twenty-five (25) percent.

ARTICLE 14 - PROCEDURES AND REQUIREMENTS FOR CONDITIONAL USE PERMITS: SUBSTANTIALLY SIMILAR USES

14.1: Conditional Uses: The provisions of Sections 14.1A to 14.1I inclusive of this Resolution apply to the location and maintenance of any and all conditional uses.

- A. Purpose: In recent years, the characteristics and impacts of an ever-increasing number of new and unique uses, together with the broadening of numerous conventional uses, have fostered the development of more flexible regulations designed to accommodate these activities in a reasonable and equitable manner, while safeguarding both the property rights of all individuals and the health, safety, and general welfare of the community. Toward these ends, it is recognized that this Resolution should provide for more detailed evaluation of each use conditionally permissible in a specific district with respect to such considerations as location, design, size, method(s) of operation, intensity of use, public facilities requirements, and traffic generation. Accordingly, conditional use permits shall conform to the procedures and requirements of Sections 14.1B to 14.1I.
- B. Contents of Conditional Use Permit Application: Any owner, or agent thereof, of property for which a conditional use is proposed shall make an application for a conditional use permit by filing it with the Zoning Inspector, who shall within seven

days transmit it to the Board of Zoning Appeals. Such application at a minimum shall contain the following information:

1. Name, address and phone number of the applicant;
2. Legal description of the property;
3. Zoning District;
4. Description of existing use;
5. Description of proposed conditional use;
6. A plan of the proposed site for the conditional use showing the location of all buildings, parking and loading areas, streets and traffic accesses, open spaces, refuse and service areas, utilities, signs, yards, landscaping features, and such other information as the Board may require;
7. A narrative statement discussing the compatibility of the proposed use with the existing uses of adjacent properties and with the comprehensive plan, to include an evaluation of the effects on adjoining properties of such elements as traffic circulation, noise, glare, odor, fumes, and vibration;
8. A list containing the names and mailing addresses of all owners of property within five hundred (500) feet of the property in question;
9. A fee as established by Resolution;
10. A narrative addressing each of the applicable criteria contained in Section 14.1C.

C. General Standards for All Conditional Uses: The Board shall review the particular facts and circumstances of each proposed use in terms of the following standards and shall find adequate evidence showing that such use at the proposed location:

1. Is in fact a conditional use as established under the provisions of Articles 7-9 and appears on the Schedule of District Regulations adopted for the zoning district involved;
2. Will be in accordance with the general objectives, or with any specific objective, of the County's Comprehensive Plan and/or Zoning Resolution;
3. Will be designed, constructed, operated, and maintained so as to be harmonious and appropriate in appearance with the existing or intended character of the

general vicinity and that such use will not change the essential character of the same area;

4. Will not be hazardous or disturbing to existing or future neighboring uses;
 5. Will be served adequately by essential public facilities and services such as highways, streets, police and fire protection, drainage structures, refuse disposal, water and sewer, and schools; or that the persons or agencies responsible for the establishment of the proposed use shall be able to provide adequately any such services;
 6. Will not create excessive additional requirements at public cost for public facilities and services and will not be detrimental to the economic welfare of the community;
 7. Will not involve uses, activities, processes, materials, equipment and conditions of operation that will be detrimental to any persons, property, or the general welfare by reason of excessive production of traffic, noise, smoke, fumes, glare, or odors;
 8. Will have vehicular approaches to the property which shall be so designed as not to create an interference with traffic on surrounding public thoroughfares;
 9. Will not result in the destruction, loss, or damage of a natural, scenic, or historic feature of major importance.
- D. Public Hearing: The Board of Zoning Appeals shall hold a public hearing within thirty (30) days after it receives an application for a conditional use permit submitted by an applicant through the Zoning Inspector.
- E. Notice of Public Hearing: Before conducting the public hearing required in Section 14.1D, notice of such hearing shall be given in one or more newspapers of general circulation in the Township at least fifteen (15) days before the date of said hearing. The notice shall set forth the time and place of the hearing, and shall provide a summary explanation of the conditional use proposed.
- F. Notice to Parties of Interest: Prior to conducting the public hearing required in Section 14.1D, written notice of such hearing shall be mailed by the Chairman of the Board of Zoning Appeals, by first class mail, at least ten (10) days before the date

of the hearing to all parties of interest, to include all property owners listed in the application. The notice shall contain the same information as required in Section 14.1E, for notices published in newspapers.

G. Action by the Board of Zoning Appeals: Within thirty (30) days after the date of the public hearing required in Section 14.1D, the Board shall take one of the following actions:

1. Approve issuance of the conditional use permit by making an affirmative finding in writing that the proposed conditional use is to be located in a district wherein such use may be conditionally permitted, that all conditions for approval of such use will neither result in significant negative impacts upon nor conflict with surrounding uses. Such written finding may also prescribe supplementary conditions and safeguards as specified in Section H. Upon making an affirmative finding, the Board shall direct the Zoning Inspector to issue a conditional use permit for such use which shall list all conditions and safeguards specified by the Board for approval.
2. Make a written finding that the application is deficient in information or is in need of modification and is being returned to the applicant. Such finding shall specify the information and/or modifications which are deemed necessary.
3. Make a written finding that the application is denied, such finding specifying the reason(s) for disapproval.

If an application is disapproved by the Board, the applicant may seek relief through the Court of Common Pleas. Appeals from Board decisions shall be made in the manner specified in Section 16.9.

H. Supplementary Conditions and Safeguards: In granting approval for any conditional use, the Board may prescribe appropriate conditions and safeguards in conformance with this Resolution. Any violation of such conditions and safeguards, when made a part of the terms under which the conditional use is granted, shall be deemed a punishable violation of this Resolution, and may result in revocation of the conditional use permit.

I. Expiration of Conditional Use Permit: A conditional use permit shall be deemed to

authorize only one particular conditional use, and said permit shall automatically expire if such conditionally permitted use has not been instituted or utilized within one (1) year of the date on which the permit was issued, or if for any reason such use shall cease for more than two (2) years.

14.2: Substantially Similar Uses:

- A. Procedure and Requirements to Determine That a Use is Substantially Similar: Where a specific use is proposed that is not listed or provided for in this Resolution, the Board of Zoning Appeals may make a determination, upon appeal, that the proposed use is substantially similar to a specific use that is listed or provided for in this Resolution. If the Board finds that a use is substantially similar to a specific use listed in this Resolution, the substantially similar use is deemed to be a substantially similar permitted use in those districts where the specific use is a permitted use, and a substantially similar conditional use in those districts where the specific use is a conditionally permitted use. In formulating a determination that a proposed use is a substantially similar use, the Board shall follow the procedures relating to appeals and variances as specified in Article 13, of this Resolution. Upon making a determination that a proposed use is substantially similar, the Board shall notify the Township Trustees of its decision and shall include in its written findings the reasoning upon which the decision is based. Unless the decision is rejected within thirty (30) days of its receipt by the Township Trustees, such substantially similar use determination by the Board shall become effective.
- B. 2. The nature, predominant characteristics, and intensity of the proposed use in relation to those uses specified by this Resolution as being permitted, or in the case of a conditional use, conditionally permitted, in that district.
 3. The size, dimensional requirements, parking requirements, traffic generation potential, and other regulatory considerations normally associated with uses as specified in this Resolution.
- D. Effect of Determination That a Use Is Substantially Similar: Should a use be determined to be substantially similar to a specific permitted or conditionally permitted use provided for in this Resolution, it shall then be permitted in the same manner and under the same conditions and procedures as the use is permitted to which it has been found to be substantially similar.
- E. Record of Substantially Similar Uses: The Zoning Inspector shall maintain as a public record a listing of all uses which have been determined to be substantially similar. For each such use the record shall include the use as listed in the Resolution, the use unlisted in this Resolution about which the determination of substantial similarity was made, and the dates of any actions thereupon by the Board of Zoning Appeals or the Township Trustees. This record shall also contain the same information for all uses which have been determined not to be substantially similar. The Zoning Inspector shall consult this record in the process of issuing future permits.

Under this Resolution the Township Trustees shall only have the duties of considering and adopting or rejecting proposed amendments or the repeal of this Resolution as provided by law, and of establishing a schedule of fees and charges as stated in Section 11, of this Article. Nothing in this Resolution shall be interpreted to prevent any official of the Township from appealing a decision of the Board to the courts as provided in Chapters 2505 and 2506 of the Ohio Revised Code. Any such appeal shall be made within ten (10) days of the Board's written decision.

16.10: Township Trustees: The powers and duties of the Township Trustees pertaining to the Zoning Resolution are as follows:

The schedule of fees shall be posted in the office of the Zoning Inspector, and may be altered or amended only by the Board of Township Trustees. Until all such appropriate fees, charges, and expenses have been paid in full, no action shall be taken on any application, appeal, or administrative procedure.

All zoning permits shall, however, be conditional upon the commencement of work within one year. One copy of the plans shall be returned to the applicant by the Zoning Inspector, after the Zoning Inspector shall have marked such copy either as approved or disapproved and attested to same by his signature on such copy. One copy of plans, similarly marked, shall be retained by the Zoning Inspector. 17.12: Stop Work Order: Subsequent to his determination that work is being done contrary to this Resolution, the Zoning Inspector shall write a stop work order and post it on the premises involved. Removal of a stop work order, except by the order of the Zoning Inspector, shall constitute a punishable violation of this Resolution.

17.13: Zoning Permit Revocation: The Zoning Inspector may issue a revocation notice to revoke a permit or administrative approval which was issued contrary to this Resolution or based upon false information or misrepresentation in the application.

17.14: Notice of Violation: Whenever the Zoning Inspector or his agent determines that there is a violation of any provision of this Resolution, a warning tag shall be issued and shall serve as a notice of violation. Such order shall:

Service shall be deemed complete when the fact of mailing is entered of record, provided that the ordinary mail envelope is not returned by the postal authorities with an endorsement showing failure of delivery; or
- C. By posting a copy of the notice form in a conspicuous place on the premises found in violation.

17.15: Ticketing Procedure: If, upon reinspection following the issuance of a notice of violation, the condition has not been corrected, the person or persons responsible shall be issued a ticket. Such ticket shall:

Any person, firm or corporation who violates this Resolution or fails to comply with any of its requirements shall upon conviction thereof be fined not more than one-hundred (100) dollars and in addition shall pay all costs and expenses involved in the case. Each day such violation continues after receipt of a violation notice shall be considered a separate offense. The owner or tenant of any building, structure, premises, or part thereof, and any architect, builder, contractor, agent, or other person who commits, participates in, assists in, or maintains such violation may each be found guilty of a separate offense and suffer the penalties herein provided.

17.17: Additional Remedies: Nothing in this Resolution shall be deemed to abolish, impair, or prevent other additional remedies as provided by law. In the event of a violation of any provision or requirement of this Resolution, or in the case of an imminent threat of such a violation, the Zoning Inspector, the Prosecuting Attorney, or the owner of any neighboring property who would be especially damaged by such violation, may, in addition to other recourses provided by law, institute mandamus, injunction, abatement, or other appropriate actions to prevent, remove, abate, enjoin, or terminate such violation.

ARTICLE 18 - VALIDITY AND REPEAL
