ARTICLE XXIII PROCEDURES AND REQUIREMENTS FOR APPEALS AND VARIANCES

Section 1. General

Appeals and variances shall conform to the procedures and requirements of Sections 2 to 12 inclusive, of this resolution. As specified in Section 3, the Board of Zoning Appeals has appellate jurisdiction relative to appeals and variances.

Section 2. Appeals

Appeals to the Board of Zoning Appeals concerning interpretation or administration of this resolution may be taken by any person aggrieved or by any officer or bureau of the legislative authority of the Township affected by the decision of the Zoning Inspector. Such appeal shall be taken within twenty (20) days after the decision by filing, with the Zoning Inspector and with the Board of Zoning Appeals, a notice of appeal specifying the grounds upon which the appeal is being taken. The Zoning Inspector shall transmit to the Board of Zoning Appeals all the papers constituting the record upon which the action appealed from was taken.

Section 3. Stay of Proceedings.

An appeal stays all proceedings in furtherance of the action appealed from unless the Zoning Inspector from whom the appeal is taken certifies to the Board of Zoning Appeals after the notice of appeal is filed with him, that by reason of facts stated in the application, a stay would, in his opinion, cause imminent peril to life or property. In such case, proceedings shall not be stayed other than by a restraining order which may be granted by the Board of Zoning Appeals or by a court of record on application, on notice to the Zoning Inspector from whom the appeal is taken or due cause shown.

Section 4. Variances

The Board of Zoning Appeals may authorize upon appeal in specific cases such variance from the terms of this resolution as will not be contrary to the public interest where, owing to special conditions, a literal enforcement of the provisions of this resolution would result in unnecessary hardship. No nonconforming use of neighboring lands, structures or buildings in the same district and no permitted or nonconforming use of lands, structures, or buildings or in other districts shall be considered grounds for issuance of a variance. Variances shall not be granted on the grounds of convenience or profit, but only where strict application of the provisions of this resolution would result in unnecessary hardship.

Section 5. Application and Standards for Variances

Except as otherwise permitted in this resolution no variance in the strict application of the provisions of this resolution shall be granted by the Board of Zoning Appeals unless the Board finds that the written application for the requested variance contains all of the following requirements.

- 1) Name, address and phone number of applicant(s);
- 2) Legal description of the property;
- 3) Description or nature of variance requested;
- 4) A fee as established by resolution;
- 5) Narrative statements establishing and substantiating that the variance conforms to the following standards:
 - a) The granting of the variance shall be in accord with the general purpose and intent of the regulations imposed by this resolution on the district in which it is located and shall not be injurious to the area or detrimental to the public welfare.
 - b) The granting of the variance will not permit the establishment of any use, which is not otherwise permitted in the district.
 - c) There must exist special circumstances or conditions, fully described in the findings, applicable to the land or buildings for which the variance is sought, which are peculiar to such land or buildings and do not apply generally to land or buildings in the area, and which are such that the strict application of the provisions of this resolution would deprive the applicant of the reasonable use of such land or building. Mere loss in value shall not justify a variance; there must be deprivation of beneficial use *of land*.
 - d) There must be proof of undue hardship created by the strict application of this resolution. It is not sufficient proof of hardship to show that greater profit would result if the variance were granted. Furthermore, the hardship complained of cannot be self-created, nor can it be established on this basis by one who purchases with or without knowledge of the restrictions; it must result from the application of this resolution; it must be suffered directly by the property in question; and evidence of variances granted under similar circumstances need not be considered.
 - e) The granting of the variance is necessary for the reasonable use of the land or building, and the variance as granted is the minimum variance that will accomplish purpose.
 - f) The proposed variance will not impair an adequate supply of light and air to adjacent property, substantially increase the congestion in the public streets, increase the danger of fire, endanger the public safety, or substantially diminish or impair property values of the adjacent area.
 - g) The granting of the variance requested will not confer on the applicant any special privilege that is denied this regulation to other lands, structures, or building in the same district.

Section 6. Additional Conditions and Safeguards

The Board may further prescribe any conditions and safeguards that it deems necessary to insure that the objectives of the regulations or provisions to which the variance applies will be met. Any violation of such conditions and safeguards, when they have been made a part of the terms under which the variance has been granted, shall be deemed a punishable violation under this resolution.

Section 7. Public Hearing by the Board of Zoning Appeals

The Board of Zoning Appeals shall hold a public hearing within twenty (20) days after the receipt of an application for an appeal or variance from the Zoning Inspector or an applicant.

Section 8. Notice of Public Hearing in Newspaper

Before conducting the public hearing required in Section 7, notice of such hearing shall be given in one or more newspapers of general circulation in the Township at least ten (10) days before the date of said hearing. The notice shall set forth the time and place of the public hearing, and the nature of the proposed appeal of variance.

Section 9. Notice to Parties in Interest

Before conducting the public hearing required in Section 7, written notice of such hearing shall be mailed by the Chairman of the Board of Zoning Appeals, by first class mail, at least ten (10) days before the day of the hearing to all parties in interest. The notice shall contain the same information as required of notices published in newspapers as specified in Section 8.

Section 10. Action by Board of Zoning Appeals

Within thirty (30) days after the public hearing required in Section 7, the Board of Zoning Appeals shall either approve, approve with supplementary conditions as specified in Section 6, or disapprove the request for appeal or variance. The Board of Zoning Appeals shall further make a finding in writing that the reasons set forth in the application justify the granting of the variance that will make possible a reasonable use of land, building or structure. Appeals from Board decision shall be made to the Court of Common Pleas.

Section 11. Term of Variance

No order of the Zoning Board of Appeals granting a variance shall be valid for a period longer than one (1) year from the date of such order unless the building permit or zoning approval is obtained within such period, and the erection or alteration of a building is started or the use is commenced within such period.

Section 12. Authorized Variances

Variances from the regulations of this resolution shall not be granted unless the Board makes specific findings of fact, based directly on the particular evidence presented to it, which support conclusions that the standards and conditions imposed in Section 5, have been met by the applicant. Variances may be granted as guided by the following:

- 1) To permit any yard or setback less than the yard or setback required by the applicable regulations.
- 2) To permit the use of a lot or lots for a use otherwise prohibited solely because of the insufficient area or width of the lot or lots, but generally the respective area and width of the lot or lots should not be less than eighty (80) percent of the required area and width.
- 3) To permit the same off-street parking facility to qualify as required facilities for two or more uses, provided that substantial use of such facility by each user does not take place at approximately the same hours of the same days of the week.
- 4) To reduce the applicable off-street parking or loading facilities required, but generally by not more than thirty (30) percent of the required facilities.
- 5) To allow for the deferment of required parking facilities for a reasonable period of time, such period of time to be specified in the variance.
- 6) To increase the maximum distance that required parking spaces are permitted to be located from the use served, but generally not more than forty (40) percent.
- 7) To increase the maximum allowable size or area of signs on a lot, but generally by not more than twenty-five (25) percent.

Section 5. Public Hearing

The Board of Zoning Appeals shall hold a public hearing within thirty (30) days after it receives an application for a conditional use permit submitted by an applicant through the Zoning Inspector.

Section 6. Notice of Public Hearing

Before conducting the public hearing required in Section 5, notice of such hearing shall be given in one or more newspapers of general circulation in the Township at least ten (10) days before the date of said hearing. The notice shall set forth the time and place of the hearing, and shall provide a summary explanation of the conditional use proposed.

Section 7. Notice to Parties of Interest

Prior to conducting the public hearing required in Section 5, written notice of such hearing shall be mailed by the Chairman of the Board of Zoning Appeals, by first class mail, at least ten (10) days before the date of the hearing to all parties of interest, to include all property owners listed in the application. The notice shall contain the same information as required in Section 5 for notices published in newspapers.

Section 8. Action by the Board of Zoning Appeals

Within thirty (30) days after the date of the public hearing required in Section 5, the Board shall take one of the following actions:

- 1) Approve issuance of the conditional-use permit by making an affirmative finding in writing that the proposed conditional use is to be located in a district wherein such use may be conditionally permitted, that all conditions for approval of such use in such district have been met, and that such use will neither result in significant negative impacts upon nor conflict with surrounding uses. Such written finding may also prescribe supplementary conditions and safeguards as specified in Section 9. Upon making an affirmative finding, the Board shall direct the Zoning Inspector to issue a conditional use permit for such use which shall list all conditions and safeguards specified by the Board for approval.
- 2) Make a written finding that the application is deficient in information or is in need of modification and is being returned to the applicant. Such finding shall specify the information and/or modifications, which are deemed necessary.
- 3) Make a written finding that the application is denied, such finding specifying the reason(s) for disapproval.

If an application is disapproved by the Board, the applicant may seek relief through the Court of Common Pleas.

Section 9. Supplementary Conditions and Safeguards

In granting approval for any conditional use, the Board may prescribe appropriate conditions and safeguards in conformance with this resolution. Any violation of such conditions and safeguards, when made a part of the terms under which the conditional use is granted, shall be deemed punishable violation of this resolution.

Section 10. Expiration of Conditional Use Permit

A conditional use permit shall be deemed to authorize only one particular conditional use, and said permit shall automatically expire if such conditionally permitted use has not been instituted or utilized within one (1) year of the date on which the permit was issued, or if for any reason such use shall cease for more than two (2) years.

Section 11. Procedure and Requirements to Determine that A Use Is Substantially Similar

Where a specific use is proposed that is not listed or provided for in this resolution, the Board of Zoning Appeals may make a determination, upon appeal, that the proposed use is substantially similar to a specific use that is listed or provided for in this resolution. If the Board finds that a use is substantially similar to a specific use listed in this resolution, the substantially similar use is deemed to be a substantially similar permitted use in those districts where the specific use is a permitted use, and a substantially similar conditional use in those districts where the specific use is a conditionally permitted use.

In formulating a determination that a proposed use is a substantially similar use, the board shall follow the procedures relating to appeals and variances as specified in AAUCLE XXII of this resolution. Upon making a determination that a proposed use is substantially similar, the Board shall notify the Township Trustees of its decision and shall include in its written findings the reasoning upon which the decision is based. Unless the decision is rejected within thirty (30) days of its receipt by the Township Trustees, such substantially similar use determination by the Board shall become effective.

Section 12. Remedy by Application for Amendment

If the Board determines that a proposed use is not substantially similar, such determination shall not be appealed to the Township Trustees, but remedy may be sought by the appellant through the submission of an application for amendment as prescribed in ARTICLE XXII.
